Sir

I have the honor to
apart for your information the
one Jacob A. Strong of London
information received from
who was the father of John A.
Kearney who is a lawyer. Kearney
residing at Foster Lake Ontario
catching and selling immature fish
fish during the month of September
also charged him for illegally using
a trap on the 20 mile creek
last April. And wished me to
try the case.

After hearing his statements
I consented to do so. The trial being
at last Thursday the 29th at
the town of Foster. The result was
I was compelled to dismiss the
two charges with costs against the
Complainant on account of the
unsatisfactory and contradictory
evidence on part of the prosecution
who appeared not to be able to prove
the case. When on the witness stand
and it turned out nothing but a
piece of spite work on the part of
Strong against Freeman. Consequently
I had no other alternative but
but

[illegible]

but he deserves the credit of being
the complement to the Court.

It appears by the testimony
in the case that Greenman
was engaged by the Court as a
fish or wild fowl expert. In
examining out the evidence he
stated that he sold a large number
of small or immature white fish
from 1/2 lb. up to 1 lb. and was told
by Greenman to sell them as such
at 6 cts. apiece. but when he was on
the witness stand, Mr. Greenman
brought a sample of the Herring he
was in the habit of catching and
said that before the Court for
inspection. I asked Mr. Greenman
were there of fish the size of the
one he had some of them were I then
told him to pick out any white
fish he might describe the kind
and size of the largest Herring
and he told them for white fish
Finally he admitted that he was
unable to tell the difference
between a small white fish and a
medium size Herring. The other
other witnesses who were present
ignored the Mr. Greenman statement
he sold a 3 inch fish.

caught a large size Herring and
 denied of ever telling O'Brien he sold
 the fish for white fish. Also it was
 impossible to catch white fish in
 the quantities with any other kind in
 a Herring gill net. As stated by Mr
 O'Brien. The Herring caught in such a
 net being principally Herring with
 a few small fish. I thought
 in case of substantiated evidence
 this case fell through.

The evidence in the Hoop net
 case was no better. no evidence being
 produced to show that Greenman
 owned a net of that kind. He de-
 nied of ever fishing out at any
 time.

In conclusion I may state
 that it came out through the
 evidence that the complainant
 bears a very bad reputation and
 it was evidently to be seen that
 his object in laying the above
 charges was some money offering
 to settle the matter with Greenman.
 The day before the trial for the sum
 of \$10,000 Mr Greenman offering to have
 anything to do with him. The whole
 favorable evening in the first place
 through a disagreement between the
 two. And O'Brien was determined
 determined.

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above matter. I am sorry to hear that you are not well, and hope that you will soon be able to resume your duties. I am, Sir, very respectfully,

Sir I have the honor to inform you that I am in receipt of a letter from Mr. J. H. Boulton of St. Catharines dated the 21. ultimo stating that Messrs. Lake and York have been purchasing from Mr. Boulton some quantity of small farming in the neighborhood of that City on Saturday last. The fish were caught in the Stirling machine of Messrs. Wadsworth and Gabriel of St. John's River.

Mr. Boulton states he would be supplying the Herring and I could see that such duties are to pass under the present arrangement as are the having immature farming in their possession. I have expressed him to be very particular until I hear from you as to what decision you have come to in the matter which has already occurred in reference to their parties which has been duly reported to your Dept on the 29. of October last and which is respectfully submitted for your consideration. I am, Sir, very respectfully,
Yours truly,

all the above permits were issued for the privilege of angling in the waters of the Niagara River and at the foot of Lake Erie in the vicinity of Point Abino. Angling was exceptional good throughout the season large numbers of black bass Rock Bass & perch being taken a greater number of American anglers were during the year and much engaged Canadian boats & tackle than last year. A number of boat houses starting on the strength of the regulations governing American anglers doing all our business they otherwise if the regulations were not in force. Also this had the effect of decreasing the number of applicants.

applicants then made last year.
 They being 44 permits issued and
 \$255.00 collected. a number of last
 year's applicants coming over and re-
 newing permits and engaging our boats &c.
 I was compelled to seize a num-
 ber of American Row boats at Bunker
 in order to make them obey the law
 as well as a couple at Fat-Ace. after
 this was done there was no further
 trouble as far as the American
 Anglers concerned.

All of which is respectfully

Sir

I am referring to your letter of the 11th inst. at the New Soc. Co. prohibiting the fishing of machines in Niagara River. Does your instructions imply that the owners of those machines be allowed to fish out the river in the 1st of the year. I have notified Messrs. Woodworth & Gabriel that your letter had decided to prohibit this mode of fishing and that there shall not be a renewal of Woodworth's rights on the river. It is safe for them to fish until the 1st of the year as they do not wish to get in any further trouble as your order is not definite on this point. I would ask for further instructions.

My Dear Pomeroy

I thought I would let you know that I have succeeded in having the fishing machine at Henderson abolished. no more licenses shall be granted for the mode of fishing after this year. I found that it is the most destructive way to catch fish that exists. tons of immature Herring of no market value have been caught & after shipped over to your side, or thrown away. of course I had a good deal of opposition from existing parties. but I proved my case so clearly the fishing left in your hands to the extent of one year. consented to my suggestions. Now another trouble arises they claim that the Japs are permitted on your side of the river. and are catching great numbers of immature Herring &c &c and considering as they do on their part &c. I am now in a couple fishing as I thought you had done every week. I then

But you have recovered your health and is able to attend your business

would you kindly suggest your association of the prohibition of the machine on one side

I beg to report that being in the vicinity of Oregon a few days ago. I was asked by the fishermen residents of the fishing station whether it would be safe on their part to have a supply of Herring Gill net used 2 inch mesh for use during next year fishing. I informed them I was not in a position to give them a definite answer on the question at present. I did not know the views of the Dept in the respect, but intended to write the Director in reference to the matter and ascertain the intention of and what if it was the intention of adopting a standard mesh for the fishing of Herring in future in Puget Sound.

However it may not be amiss on my part at this stage of the proceedings to state my views and suggestion in reference to the adoption of a standard size mesh for the fishing of Herring in Puget Sound for such information.

 the time has arrived when some
 action should be taken in making
 our universal size mesh for
 fishing all nets. The same as adopted
 for the fishing Salmon & Trout
 while fish in action to do away
 this uncertainty that do now
 exist as to what size the fish
 mesh for Herring all nets should
 be &c &c

The Chequamegon Men have in
 the past used a Herring all
 of a 3 & $\frac{3}{4}$ & $\frac{5}{8}$ inch mesh but
 measure until recently. But
 have found that the above mesh
 did not pay on account of the
 decrease of the large Herring. They
 would suggested this necessary
 it in order to make a law
 they have fished smaller mesh
 $2\frac{1}{2}$ & $2\frac{3}{4}$ with much better success
 catching a fair size marketable
 Herring.

This size mesh I claim is
 a fair & proper size mesh to adopt
 as a permanent a adopted
 standard mesh for the purpose
 of catching Herring in Lake Ontario
 the larger & smaller as it is

well known that Lake Ontario
 does not produce a large catch
 on the average as Lake Erie. When
 a 3 inch mesh is in universal use
 which appears that kind of
 fishing entirely. each is used as
 a standard net with good suc-
 cess. anything larger or smaller
 not successful as the 3 inch one
 but to attempt to use the above
 size mesh in Lake Ontario it
 would not pay on account of
 the difference in the size of the
 rings of each Lake. By using the
 3 inch mesh for Herring altogether
 in Lake Erie a good average size
 and of about the same weight
 are caught. While in Lake Ontario
 the fishing of Herring is quite
 different. fishing from $2\frac{1}{4}$ to
 $3\frac{1}{2}$ inch mesh. and the consequence
 is by fishing so many size mesh
 the fish caught are of many
 weights and are mixed and
 mixed together in order to dispose
 of them at a profit. but I believe
 of a regular standard mesh will
 adapt this objection of so small
 irregular size fish would be
 overcome. Some then might be

be a slight reduction in the
catch if the above mesh were
permanently introduced and
optical, but only for a short time
as the Herring would be allowed
to grow in size suitable to be
caught in such proposed mesh
and what would be lost in num-
bers would be a gain in weight

prices and far more revenue
to the fishermen in the end
and more satisfaction in every
way to the public at large.

I would therefore ask of
the intention of the Dept. of
making any change as to the size
of the mesh or can I give those
fishermen any definite answer to
their request. In closing I may state
that there has been a great deal
of Herring this fall. The larger
number of fish caught at a time
for 15 years in the waters of Lake

gives great satisfaction to the
fishermen thus engaged.

Amellon Nov 23 1893

Dear Sir, I beg to report for your information and attention that I have been lately applied and requested by a large number of Fishermen & others who are in the habit of spearing the fish in Amellon Bay during the winter months as to the possibility of having some regulations and restrictions placed upon spearing such as issuing licenses &c. with a fee of \$1.00 for each boat and spear which was done prior to 1893. Also spearing commences the 1st day of January in each year and the 1st day of April is about the time that the fish commence to spawn &c.

Since the time your letter has thrown the spearing on the bay open and free to the public without the annual license fee things have ^{not} moved as satisfactorily among the numerous Fishermen as heretofore, on account of the number and a lot of worthless characters & loafers which are

 the regular speurer to entire
 extent of carrying out his work
 properly. And as many as a half
 a dozen will crowd in one hole
 at a time. And most of them
 having no experience in the art
 of spearing catch very few fish.

Dear Sir

I beg to acknowledge the receipt of your letter of the 23rd inst. re. H. J. Evans of Niagara and a missing letter said to contain the sum of \$55.00 which was mailed to my address on the 20th Sept last from the Hon. Secy. I am not receiving the same.

In reply I am to inform you that we had no correspondence on the matter but I will be pleased to whole circumstances.

1st On the 4th of Sept last I had two Americans summoned to appear before Mr. Evans who is a Magistrate for illegal parking & interfering with a constable. The latter appeared & was fined. The former one did not come but sent word he would be on hand the next day. I was anxious to wait and catch Evans if the man appeared he was to fine him \$5.00 and remit the money to me giving him my address. I heard nothing further in the matter until the 13th October when hearing no more cases. I casually ask Mr. Evans if that man appeared he said yes and he fined him \$5.00 I ask him why he did not forward the money as he promised.

the whole circumstances

1st On the 4th of Sept last I had
two Americans summoned to appear
before Mr Evans who is a Magistrate
for all the district and is also
a constable. The latter appeared &
was fined 10 shillings but did not
come but sent word he would be

to wait until the next day. Evans of the
man appeared he was to give me
\$5.00 and send the money to me
giving them my address. I heard
nothing further in the matter until
the 13th of October when I received a
message from Mr Evans
that he had appeared & he said
he would pay me \$5.00. I lost
him & he did not forward me
the money as he promised to do

answered the track down so, turning
to the bank he showed me a copy
of the letter dated the 3rd of Sept.
He did not regard the
letter concerning the who met in P.
Mabel of doing so. We went over
to the Post Office and made some
enquiries but of course there was
no record there on account of our
to apologise it.

I am quite sure it never
reached my letter box as I generally
take out my own letters myself and
it is the first occurrence since I have
held office although a large amount
of money has come in small amounts
but they are generally repaid.
I was again in Mexico last week
and was complimented that there
was a another letter missing which
he had mailed to Toronto with some
accounts. &c so I do not know what
to think of the whole matter.
Whether Wms. forgot to send the
letter or it was taken before it
reached Hamilton I cannot say.
For certain I did not receive it
when ever it came.

Dear Sir

In answer to your query
and other gentlemen desiring
the loan of the net asking whether
the Dept. contemplated in passing
any regulation this year in forcing
a uniform size mesh for the purpose
of catching Herring in future

I am to inform you that
I am understood the Dept. does
not not propose to make any
change and the same nets used
last year may be again allowed

Please inform those parties

Sir

I have the honor to acknowledge the receipt of your letter of the 14th inst. with enclosed petition signed by the residents of the Town of Niagara Falls, County of Lincoln, praying that the citizens of the United States be allowed to anchor on the Canadian side of the lower Niagara River without the necessity of permit. I would say that as far as the Town of Niagara is concerned I have not the least objection on my part. As it does not make any difference because there is no anchoring of any account at or near the mouth of the River on the Canadian side. The fishing being altogether on the American side of the American Fort Boats being there on this side in farose and the English and boats there being nearer than going down. As the are only opposite the Niagara Falls on the American side of the River is a military reserve and are only allowed boats for the police.

Soldiers own concerns 1896

However as the petition calls for the Lower Niagara River only which I presume means the rapids below the Falls. In that case I cannot agree with the exemption as it would interfere with the Town of Henshaw. whom I believe would object. As what is good a benefit to Niagara would be detrimental to them. The restrictions placed upon Americans unless having chartered Boat Houses etc at the former place and is considered very special to them down on the whole a greater number of American Tourists stopping off during the summer enjoying Boats fishing tackle etc than otherwise if the restriction were removed.

As far as I can understand the Niagara people would be satisfied if the River fronting on the Town of Niagara was exempt. They having become much alarmed at a threat made that the same restrictions would be placed on Canadian Boats if the present restrictions on American Boats were not removed. They fear if

of the American authorities
out of the door. That is not
nearly so much the business of the
house as it is the business of the
people. All along the line the
people of the United States are
a step ahead of the authorities. For
the American people are not only
being educated of its affairs but
they are also being educated in
the principles of our government.

if the American authorities carry
out their threat. That partying
would seem to the owners of the
boat some boats.

All along the river to Fort
Cien I have heard no complaints
or objection to the restrictions form-
ing the American Angling. All
being satisfied of its efficiency in
protecting our own anglers as well
as a protection of our game fish
except the town of Niagara where
harborage is the town of losing its
boat trade. Other ^{places} are as far as
I ever heard of not satisfied at the
way things are and believe would
object to any change.

I would therefore suggest that
the River Authority on the incorpora-
tion of the town of Niagara be
exempt from the restrictions placed
upon American anglers of its power
to do as all of which is respectfully
submitted.

My Dear Ben

I am in receipt of your letter of the 4th instant containing the sum of \$15.00 for license for J. M. Freeman Jackson to travel 60 miles. Does Freeman wish to have license in his own name or in J. M. Jackson as heretofore

I do not know what he is an awful liar. He says that he deserves a license. I know. He acts very strange. Although I do not like that charge against him as to a forger in the past and have to make inquiry into it. If it is true I cannot recommend him.

I have been speaking to Mr. Gensley about you. He says he would be glad to have you appointed as game warden and wants you to either wait a see the game law matters and if he agrees he will have you appointed as soon as he wants a man as soon as possible. You may be sure that I gave you the best shot off that I was capable. You might mention to Gibson that you have assisted me in the past. I believe you have no trouble
Yours truly
J. M. Jackson

On the 18th of December I have the honor to receive from your representative a letter of introduction to the Hon. Secy of the Interior. The letter is very respectful and contains a statement of the value of the land in question. It is a pleasure to me to learn that the Hon. Secy of the Interior is so favorably disposed towards the cause of the Indians. I am sure that the Hon. Secy of the Interior will do all in his power to protect the rights of the Indians. I am, Sir, very respectfully,
Yours truly,

Hamilton Dec. 1896

Sir

I have the honor to report
for your information & attention
a matter of a very important
nature on which some action
should be taken in order to protect
and preserve the White Fish in
the waters of Lake Ontario and to
facilitate their increase.

Before deciding to bring this
subject before your attention, I have
carefully looked into the matter
and after mature consideration and
thought have come to the conclusion
that something should be done in
the way of a regulation governing the
fishing of Herring gill nets in order
to protect the young White Fish
and allow them to get their proper
growth & size. There is no doubt
these fish are perceptible increases
in more strongly noticed during
the last two years, which can be
proved by the numbers of immature
fish that are caught in Herring
gill nets in certain seasons of the
year of the size of common Herring
especially in the months of June and
end

The first of these is the fact that the
 Government has been unable to secure
 the necessary funds to carry out its
 policy of non-interference. This is
 due to the fact that the Government
 has been unable to secure the necessary
 funds to carry out its policy of non-
 interference. This is due to the fact
 that the Government has been unable
 to secure the necessary funds to carry
 out its policy of non-interference.

and July more so than the past
season. Fishermen are saying me that
they have never observed a herring
plum to full than in the last years
and are eager to have them for
the winter. That I may get
them for the winter.

As it is sometimes hard
to discern the difference between
a herring and a white fish of the
same size numbers of these immen-
se quantities are brought in
by the fishermen then aware of
although I believe in the majority of
the fish of such sort is not such as
they will liberate them but they
seem to very quick in when
we are in that respect. There
herring and one of our oldest
fishermen who are not easily taken
them on account of being expensive
to the law. Although I still con-
sider it a good policy to throw
them back. They are dead and
believe the fishermen we let be
as a whole with a single
year left seemed to be
that would be applicable to all
at the same time.

As only about an hour of
and

of the first number in my collection
of Lake Ontario Fishes. The first
of them is the one I have just
written upon. One of the others is
the Lake Trout or the White Lake
Trout. The second is the Lake
Herring. The third is the Lake
Whitefish. The fourth is the Lake
Mullet. The fifth is the Lake
Perch. The sixth is the Lake

Bass. The nineteenth is the Lake

is the Lake Chain Pike. The
twenty-fifth is the Lake White
Perch. The twenty-sixth is the
Lake Yellow Perch. The twenty-seventh
is the Lake Rock Bass. The
twenty-eighth is the Lake Striped
Bass. The twenty-ninth is the
Lake Chain Pike. The thirtieth
is the Lake White Perch. The
thirty-first is the Lake Yellow
Perch. The thirty-second is the
Lake Rock Bass. The thirty-third
is the Lake Striped Bass. The
thirty-fourth is the Lake Chain
Pike. The thirty-fifth is the
Lake White Perch. The thirty-sixth
is the Lake Yellow Perch. The
thirty-seventh is the Lake Rock

of the fishermen in my district
 on Lake Ontario follows the fishing
 of Herring gill nets throughout the
 whole year. and I presume it would
 be the same on the whole Lake. in
 that case it would not be a
 hardship to shut down Herring
 fishing altogether during the sum-
 mer months as they could continue
 on gill nets for Salmon Trout
 and White fish which comes under
 the same license, and no loss would
 accrue to those who are in the
 habit of fishing all the year around.
 The time that the emigration
 of White fish are apt to be caught
 is during the months of June July
 & August. The fish striking the
 lines in the beginning of the month
 of June and off & on until September
 it appears that habits naturally

There is no doubt whatever
that the prohibition of the same
has something to do with the increase
as well as the decrease in the fishing
of ciscoes with the long eye herring

a desirable supply of white fish in
view in a immediate state of
duty to protect the same by erect-
ing certain restrictions that shall
allow them to maintain

I might also state that
the fishing for Salmon Trout and
White fish at Painesby and Werner
during the past season has been
being better for I would be safe
to say 20 years. I have not received
complete returns yet. But those
that have come shows well and
expect a large increase in the catch
of those valuable fish. Those engaged
in the fishing of Salmon Trout and
White fish quit about the first
of October and took up the fishing
of Herring so that any white fish
that were spawning or intend to
spawn in the old spawning beds
of Painesby & Werner were not

not

not disturbed in coming a ~~far~~
returning to their grounds

I have therefore briefly
explained the matter as briefly
as possible in the enclosure to en-
list your attention in order that
you may take the whole matter
to your most serious consideration
and to decide if it is advisable to
have certain restrictions placed
on Herring Gill nets where it is
deemed necessary in order to pre-
vent the growing or immature fish
fish. If your Dept. deems fit to
impose any restrictions I would
suggest that a committal that the
same be inserted in a clause in
the lease of the coming year in
order to place the fishermen on the
ground as to what is coming. That
is to say no Herring Gill net shall
be fished between the 1st day of June
and the 1st day of Sept^r or a date
decided that Herring Gill nets
should be set a certain distance
from the shore where it is prohibited.

Dear Sir

I am in receipt of your letter of the 2nd inst. and have answered it by reply.

In answer to your enquiry re. abolishing the Fishing Machine in future. I am to inform you that the reasons in disallowing the same are as follows

First The Fishing Dept. after due consideration have come to the conclusion that this mode of fishing is a most destructive one on account of the large number of small & immature Herring that have ascended the River last two seasons

second And as numerous complaints have been made in all directions as to the number of small unmarketable Herring caught and disposed of for small sums which was unfit for food etc. The Dept. has deemed it advisable to disallow the system altogether. I am sure any other party that would be more careful etc. and the circumstances I consider it less less to attempt to have your license renewed another year.

Dear Sir

I beg to acknowledge the receipt of your bill of the 15th instant containing the sum of \$20.00 (twenty dollars) also an application for a license to fish for Mackinac in the waters of the River Niagara for the year 1897.

I beg to return you here with the above sum \$20.00 being unable to accept the same as I have been instructed by the Dept. of Fisheries at Ottawa that the mode of fishing has been altered and your license would not be renewed another season. Under these circumstances I am not in a position to accept the fee.

Hamilton Dec 11/896

Sir

I have the honor to submit to you my annual report and statement for the year 1896. For the River District extending from Low Water on Lake Erie to the Point St. Charles Beach. Lake Ontario including the Niagara River etc.

Passenger and Cargo

In the course of the year back findings. There was a large increase over last year as in Lake Ontario being a most successful season. That has been the case for years. These species of fish coming in to our early birds most numerous in the latter part of October & the month of November. The fishermen catching more than they could conveniently handle and were compelled to shut down and with less out to the market. The price of herring and pike low and for a time it was hard to dispose of the fish. The herring were all small and of poor quality.

The following is a list of the names of the persons who have been appointed to the various committees of the Board of Education, for the year 1890-91.

disposal of the whole.

The Herring sea, most plentiful at all the fishing stations along Lake Ontario & in my travels had not one exception of the Herring being one of the most plentiful of fish about the Great Lakes. It is common to be taken in the mouth of the small tributaries and at the mouth of the river from Toronto to Niagara Falls. which is a channel that is changing its course every day. However I do not think this is the most abundant as it was shown that the area of small or immature Herring at the fishing stations at Deseronto was very small. They are about 1000000 in the Lake Ontario & small lakes. I have seen some of the fishermen find the Herring and catch it at other places. As the Herring is the most abundant of the whole of the Herring at the fishing stations I consider it a different kind of Herring from the Herring and the Herring people expect to find the Herring as caught by the Herring people. It is known that the Herring is the most abundant of the Herring and that otherwise would be caught if they were not.

The first thing I noticed when I stepped
 out of the boat was the cold. It was
 a sharp, biting cold that seemed to
 penetrate my coat. I shivered as I
 walked down the wooden pier. The
 air was thick with the scent of
 salt and the distant call of seagulls.
 I looked out over the water, where
 the sun glinted off the waves. A
 small boat was visible in the distance,
 its crew working together. I felt a
 sense of isolation, yet also a sense of
 adventure. This was my first time
 alone on the water. I took a deep
 breath and stepped forward.

used the same size. much that the
other fishermen are in the habit
of fishing.

The fishing on Lake
Erie was very poor the last year
some good hauls were made
the ice in the winter time and
some good fishing was done during
the fall. but the fishing of the spring
was not continuous as it has been
in last season. The fish it was
claimed by the fishermen
not this year. The fishing
is not carried on in a substantial
and business like manner as
I doubt in that portion of the
lake under my jurisdiction it is
done on a small scale not enough
half the amount of nets that this
course calls for.

Rescue is almost disappeared
and a great many fishermen cross
not look for them any more and
believe they are a thing of the
past. However if they get a hint
they may appear again. There
is doubt of their being ever
being caught if all agree me know
that it was impossible for them
to keep up the supply since the
the

The season. When the fishermen were confined to $2\frac{1}{2}$ each mark all net extension measure. The large Ciscos were not available. There was a check as to the supply in keeping up the supply. But the fishermen were in that those large ones brought better prices they commenced to fish large eye mark as well as the small ones. Fishing net from $2\frac{1}{2}$ to $3\frac{1}{2}$ each extension measure. The consequence was after a few years of good fishing the supply began to fail and in short time became depleted.

What's Fish & Salmon Savant

There was a large increase in those fish over what was caught last year. at the old fishing stations. Farms by and where the Salmon Savant fishing occurred that took place for years more than double the amount than last year. The while fish is increasing large numbers of small or immature fish being observed caught in the fishing net etc. & that has not occurred for years back. And this indicates points to the fact of the immature fish. It is now early

 a short time those fish shall be
 as abundant as before as soon

 caught during the summer months
 in flying fish and set near the
 shore I have suggested that fishing
 be left to small boats and small boats
 that would put even to the fish
 and so on

Orange Peckham
 I have catch of Orange Peckham
 reports there are being found in my
 division this year at Fort Erie
 the old Orange Peckham. There
 was one found in the lake
 end of the year. The last Peckham
 being about early in the spring
 while at Orange Lake Ontario
 about the same amount caught
 as last year. Also the Orange
 are making their appearance
 along the shore of the
 lake and the Orange Peckham
 being caught as far down as the
 Long Point, and all the Orange
 are caught with better results than
 the Peckham species is found in the
 same species in places

Salmon. When they become more numerous
 to be observed for years. These fish
 are becoming more abundant and
 valuable every year as a table fish
 and are much sought after. Although
 the catch at Fort Grease was not up
 to the mark this year it does not
 say that the fish are becoming any
 scarcer in this lake. The fish are always
 changing their color as happens in
 some cases.

Wapiti Lake Fishery

Mullett's Success Perch Pike. The
 appeared to be as abundant and as
 plentiful as ever. and I believe
 the time has arrived when the
 perch should be protected and
 a close season should be provided
 and enacted for the protection of
 those fish which are becoming so
 valuable as a table fish.

General Remarks

I must say before concluding
 that the conclusion of the Fisheries
 in my opinion is most favorable
 on the whole. First the increase
 of the Salmon & Trout & White fish
 gives much encouragement to those
 who

Those who follow them fishing as
 as they are is a positive proof of
 a visible supply in view for the
 future if we could catch them
 here of Immature fish & not
 abstracted in the land & a series of
 destructions should be adapted in
 order to protecting the same by
 increasing the use of Herring Bell Nets
 in the summer when those small
 fish are apt to be caught. This kind
 of fishing as well as the seine has
 brought the white fish to what it is
 and now as the seine has been dis-
 allowed and the young fish has
 appeared they should be allowed to
 mature and in short time shall
 be as plentiful as heretofore.

I spent a good deal of time
 on the Niagara River during the year
 in watching the river for American
 poachers. I succeeded in seeing
 one seine and boat off Navy Island
 consisting of men who were from
 also seized 3 boats at Dunkirk
 belonging to American citizens who
 were fishing without the permit
 giving 4 men for the seine, also
 seized 2 boats and arrested 3 men
 at Port Erie for catching bait traps.

illegally taken were also found
 issued 26. Mammals to
 American Anglers collecting a sum
 of \$196.00 for the same. Through the
 assistance of the Fish and Game Com-
 missioner of the Province of New York and
 we were able to break up many gangs
 of poachers who have been infesting
 this river for years and between
 the authorities on both sides of the
 River have succeeded to great ex-
 tent in stopping serious attempts
 which had the tendency to ruin
 our bass fishing and are pleased
 to see the activity displayed on
 the American side of the River
 their efforts in preventing the sale
 and believe the use or fishing of
 seines on the Niagara River has be-
 come a thing of the past. I also
 recommended and had the fish-
 ing machines abolished at Lewiston
 Niagara River abolished as it was
 doing a great injury to our fish

 purposes

Except those mentioned above I had no trouble elsewhere

 getting the fishermen on Lake St.
 had a successful year. Catching
 plenty of Herring but prices
 was lower than last year which
 placed the fish within the reach

The fishermen on the whole

 Sirs Sirs

I have the honor to acknowledge the receipt of your letter of the 10th inst. regarding the matter of the fisheries. I am sorry that I cannot give you a more definite answer at this time. I will endeavor to get the necessary information and report to you as soon as possible.

Hamilton Dec 29. 18,

Sir

Would you be pleased
to advise me as to the conclusion
your Dept may have come to in
regard to the privilege of opening
up through the ice in Burlington
Bay. which was duly explained
to you in my report of the 23rd of Nov
last. There was a number of
houses on the ice yesterday getting
ready for work. I advised them
until I receive instruction from
your Dept. as it is annual priv-
ilege. and informing them that
they would have to wait until definite
orders came regarding the same.
Please let us know as soon as pos-
sible what the intention is

Dear Sir

Hamilton Jan 4th 1897

Having heard nothing in
reference to the missing letter contain-
ing the sum of \$5.00 supposed to be sent
me by W. A. J. Evans of Niagara on the
6th of Sept last which has not reached
me up to date or has Mr Evans
made the amt good

I would therefore ask you
to kindly inform me whether you
have heard anything further in
the matter. I do not think it desirable
to send you the enclosed schedule of
convictions for the Co. of Lincoln for your
information which might throw some
light on the case. According to Law each
Magistrate is supposed to record all con-
victions made by him at least every 3
months under a heavy penalty. You
will therefore observe that Evans' conviction
recorded Oct. 1st or somewhere ^{case} who were
arrested on the 4th & 5th of Sept. \$5.00 was to
go to me and the other \$5.00 to the
Crown attorney at St. Catharines. While
another case I heard on the 13th of Oct
was duly recorded see. Schedule marked & r
would it not be just as well to
refer Mr. Evans to an officer who
these amts was not recorded the same
as the one held on the 13th of Oct and of the
Crown attorney. His presence

Sir

I have the honor to
 report for your information that on
 the 5th of Sept last one alias Scott
 Livingston was fined by Mr J. D. I.
 Evans of Niagara for illegal fishing
 in Canadian Waters Niagara River
 on my complaint, it being the out-
 come of a bargain made by me at
 Hamilton on the 22nd of August last
 Messrs Scott and man named Fous-
 dale escape. I getting out a war-
 rant for their apprehension these
 two men Scott & Fousdale came over
 the ferry on the 5th of Sept and the
 latter on the 6th and gave them-
 selves up. Scott for illegal fishing
 and Fousdale for interfering with
 a government officer they were fined
 \$5.00 each for the offence. Scott's fine
 was supposed to be sent to me and
 Fousdale's to the Crown Attorney. I was
 not at the trial of Scotts but left
 word with Evans of Scott's appearance
 he was due and the amt to me
 but being in the country until
 the 13th of Oct having Messrs Wadsworth
 and Patyrd up before Evans for illegal
 fishing. I asked Mr Evans of Scott's
 fine.

Scull made his appearance yet he
said he had not sent him, so
for the purpose and sent me the money
on the 6th of Sept. The money I never re-
ceived and have been waiting
since for Evans to make the amount
good. He states he sent the money
to my address on the 6th of Sept but
did not register the letter also
sending the Bondable fine to the
Crown Attorney. However this may
be but I did not receive any
money from Evans and have noted
that Mr Evans has ^{not} recorded the
convictions before the Clerk of the
Peace at St Catharines although I
observe the convictions of Messrs
Woodworth & Gabriel who was fined
on the 22nd of October afterwards are
duly recorded.

Please inform me whether
Mr Evans is entitled to make this
fine good as he neglected to register
the letter and also neglected
to record the same in the books of
convictions which is compulsory
by law every 3 months.

The Legal Minister. I have the honor
of Marine & Fisheries. So be Sir yours
Obedient Servant

My Dear Thomas

I am pleased to hear from you and to know that you are still on the road. I am also very in sympathy for all the work you are doing and at the same time being called away at the same time in another direction of these things is being very much in the way of your business is also now. I am ready to meet you any day you want to meet at your house. I have something before me to do. I would like very much to see you. as we could talk this matter over and see better our own arrangement that would be satisfactory to you in reference to that part of your affairs. I think it is of importance in the country where I could see you and know of your present and future work and would have to be the same as before. I am either at the same or perhaps would be the same in your present and future work.

I am pleased to hear from you and to know that you are still on the war path. I am also very disappointed you at the time you expected me at Black River but being called away suddenly in another direction I was unable to carry out my intention in meeting you. However as business is slack now. I am ready to meet you any day you ^{name} ~~say~~ next week if you will let me. Know sometime before next Saturday as I would like very much to see you as we could talk this matter over and soon settle on some arrangement that would be satisfactory to you in reference to those parties you speak of. There is lots of magistrates in the County whom I could swear out warrants against any parties you wish and could hand them to the Provincial Police men either at Fort Erie or Chippewa who would be ready to arrest any of them. Hoping to hear from you as soon as possible.

Dear Sir

I am in receipt of your letter of the 6th inst. re fishing in Big Creek without license also always saw out in the same

According to Law there should be a license. Although things may be differently arranged for your district but as far as the Law is concerned it is a direct violation of the Fishing Act Chap 95 Sec 15. Sub sec. 1 of the Fisheries Act. These parties should be punished. However I would advise to write or see Mr. James O'Hara the officer in charge of the Division who resides at Port McNicoll who will give you the proper information. I therefore send you some notices

Sir

I beg to report for your information that I am in receipt of a communication from one John J. Loan, address Lynbrook County, Norfolk dated the 6th of June who asks for certain information regarding the fishing of nets in what is known as Big Creek stream which empties in Lake Erie near Port Rowan. He wishes to ascertain whether licenses are required in order to fish those nets as everyone is fishing &c. I presume he means Dip nets & Syke nets &c. Also he states that a Mr. McKewin is running a saw mill on the said creek and allowing the saw dust to fall in the water which is killing and injuring the fish &c. and prevents the same from ascending the stream.

As these waters are in Overseen Charge Division, I suggested him to draw his attention to the fact & in the meantime I would ask your Dept opinion as to the rules & regulations regarding this stream.

Hamilton Jan 21/89

Sir

I have the honor to report
for your information that I am
in receipt of a letter from one John
McKewon a fisherman residing in
Toronto dated the 18th instant. He
states he is an applicant for a full
net license to fish in the waters
of Lake Ontario fronting on the E.
of York - having made application
for the same through the officer
who has this division in charge
he was led to believe that the
license would be granted, on the
strength of the encouragement given
him by the Officer. He says he is gone
to the expense of purchasing 800 fets
of full net in order to be ready for
a start as soon as license was
received which he claims he
fully expected. Now he finds his
application is not favourably
received - he being refused to that
effect by the officer which leaves
him in a very awkward position
the net left in his hands as a
dead loss. He does not know
where to turn his hands to next
not being blessed with much of the
kind.

For the purpose of the present
a series of experiments has been
made to determine the effect of
the various parts of the human
body on the system of the
circulation of the blood. It is
well known that the heart is
the source of the blood supply
to the various parts of the
body. The blood is pumped
out of the heart into the
arteries, which branch out
into the capillaries, where
it is distributed to the
various parts of the body.
The blood then returns to the
heart through the veins.

It is a general principle of
the human system that the
blood is constantly moving
and that it is constantly
being renewed. The blood
is constantly being
renewed by the process of
the formation of new blood
cells.

The system of the human
body is a complex one, and
it is a general principle of
the human system that the
blood is constantly moving
and that it is constantly
being renewed. The blood
is constantly being
renewed by the process of
the formation of new blood
cells.

facts &c. The disappointment being
a severe blow. In his future pros-
pects &c. I may say that as far as
I am concerned myself. I know
nothing personally of this man out-
side of his letters. He was in
some time ago as what manner he
should apply for a license &c. I referred
him to Mr. Stobo as the proper person
to apply to. He claims he is an old
Seaman and held license for a
long time. He does not say where and
is getting old and wishes to finish
the rest of his life.

I would therefore suggest
that a special enquiry be made as
to this man's statements and circum-
stances and if found correct his
application be recommended.

My dear Sir,
I beg to return your
kind letter of the 20th for
it appears the business between
you and me is now
settled in reference to the
purchase of the building for the
Library. The fact is that

Hannover Jan 23 1894

Sir

I beg to return thanks with license No 407, for correction. It appears the bargain between Tom Scott and Messrs Seal and Wentworth in reference to the purchasing of the outfit has fallen through. Messrs Seal & Wentworth backing out and requests to withdraw their application. While Mr Scott makes application for the same. Having decided to carry on the fighting for another season with two mils only. Would give his pleasure to change the name to Tom Scott Medway the same as last year.

My Dear Sir
I have just received your letter of the 11th inst. in relation to the matter of the 1st of March. I am sorry to hear that you have been so long in getting the matter settled. I have been very busy lately, but I have now had time to look into the matter. I find that the matter is not so simple as it seems. I have been consulting with the other members of the committee, and we have decided to take the following course. I have been very busy lately, but I have now had time to look into the matter. My Dear Quinnes

I suppose you are wondering why you have not received word from me before this in answer to that letter was written up of. As soon as I came home I wrote Mr. Malley and only received answer to day the letter going on account of the wrong address. However Mr. Malley says the old caretaker the Greenman left the Island and is not expected to return but there is a man at present living on the Island name Jim whom one says is a drunken sort of a fellow and not to be trusted & that the gentlemen who leave the Island is named Barlow W. Bailey of Buffalo. You might see him as he has address you best not to get lodging & hoping to hear from you soon

Yours truly

My Dear Scott

I received the letter from
Wentworth describing his appli-
cation for the power and after the
letter had come in this I was
sorry. I immediately advised
the letter asking to change the
name to Jones and after a
great deal of difficulty I suc-
ceded in doing so. The letter now
glances in your name also I
have put a bold letter in your
name as requested. Please have
the money the sum of £105.00 one
hundred & five shillings. Will you
as soon as possible send the
letter shall be signed and de-
livered to your address on the
receipt of the money. I might say
that I would not put the words
for any other man living that I
have done in this case but you

Dear Sir

I beg to acknowledge the receipt of your letter of the 20th inst. re. applications for a license &c. I may state that I have sent the same to the Survey Dept. for their consideration but am not sure whether it shall be granted or not as your application here should have been made during the month of Dec. when applications were made.

I was told that you did not intend to fish any longer and I took it for granted it was so as you had neglected to apply in season so you have no body to blame but yourself in the matter. Miles told me that he saw you the other week from to make application of fish as soon as I hear from the Dept I shall notify you.

Dear Sirs

I beg to acknowledge the receipt of your letter of the 5th inst. in respect to having the name of J. W. Keyner taken off Boat license no 392 which is placed in the names of Messrs Mills & Keyner and Gayle according to the application of Dec last.

I might state in reply to your request that at present I cannot see any way clear to carry out your wishes. Indeed I have the written consent of Mr Keyner who was one of the interested parties at the time the application was made. Also I do not at present deem it necessary on my part to interfere with the license as it now stands as it lays altogether with yourself whether you wish to retain him as a partner or not. As it makes no difference if his name is on the license you can deal with the matter when you get the license to your own satisfaction. The license calling for Boat. no. 392 leaves the applicants to settle such matters themselves. The license is such license & the name is given

Hamilton Feb 12th 1894

Sir

I beg to attract your
information & attention that Mr
Pullock an old licensed fisherman
residing on Burlington Beach on
the west side of the canal in front
of the Canal Reserve Commission
that in fishing in the Reserve the
have completely shut him out
from his fishing grounds leaving
him no access to the same, with
being compelled to go some miles
out of the way to get to them on
account of the Railway.

He spoke to Capt Campbell
the Light House Keeper who has
the work in charge to leave him
a way in by erecting a gate and
give him a key of the same. This
Mr Campbell is willing to do, and
admits the necessity of the proper
instructions as he is only carrying
out his orders as far as he is
concerned. And does not intend
to do any way arbitary in the
matter, and is willing to advise
with any order that would relieve
Pullock of the inconvenience. That
is now imposed on him.

This Fishing says the

The north of his place, the railway
being between his house and
the lake. The usual access was ob-
tained by going under the wing
of the railway bridge between the
abutment and the Canal. By
the erection of the fence it closes
this open way leaving no way
across the railway until you come
to the regular crossing near the
Town of Burlington.

I would therefore recommend
that your Dept request the Dept
of Public Works whom I understand
has this work under their contract
to instruct Capt Campbell or who-
soever the party may be to have
a gate erected opposite to the
residence and provide him with
a key of the same. which would
be a great convenience to him and
now stands I am afraid he will
have to stop fishing. In case the
Sublet suggest as I said there
will be no interference with the
fence now constructed as a place
is left for a gate the gateposts being
temporarily marked with further
orders.

Sir

In reference to the privilege of spearing fish through the ice annually allowed on Longton Bay. I would kindly ask your Dept for certain enforcement in reference to the same.

In the granting of this privilege would you be pleased to inform me whether there are any conditions that is to say whether it was intended the permission covers the whole season or for the time the ice covers the Bay only.

Spearing has been fairly successful during the winter for a large number of poor people taking advantage of the privilege over 200 fishing boats were on the Bay at the present time but outside of those who are in the habit of spearing during the winter months. I think the privilege granted allows spearing in open water during the spring when ice &c approaches shall water for the purpose of spearing.

Spearing

spawning at a time when they
could be slaughtered in thousands

As I understand the
matter the seal privilege was
granted for the special benefit
of the poor men to enable ^{him} to
catch fish through the ice dur-
ing the winter months only in order
to assist him whilst out of work
and as soon as the ice disap-
peared the law was again in force
I would say if the law
was allowed to continue
during the spring the fish
so soon be annihilated in May
therefore reducing the numbers
to such an extent that it would
not be worth while to fish during
the winter on account of the scar-
city that would prevail if any
thing was allowed. It is not a
regular species that would do
this kind of fishing but the
farmers residing on the coast
it would not last more than
a week or two but in that time
damage could be done to such an
extent that the fisheries of Barling
Bon May would not recover for
years. I have always paid special
Special

 opening. and in respect to some
 isolated places very little has been
 done since I was in office. I would
 therefore ask special consideration
 in regard to the same, and to
 ascertain from your department whether
 I am to enforce the same and to
 see that strict observance of the
 law is carried out as heretofore.

My Dear Pomeroy

I am in receipt of your letter of yesterday and thank you very much. I am also pleased to hear from you. I was in the town of Bridgeburgh & Port Ann for a day and 2 nights about 2 weeks ago. I passed the River in company with our Officer Schaffelkopf and his staff at night and did not succeed in getting or seeing any thing only nearly perished with the cold and had to make my mind not to bother with the River until the weather is warmer when a fellow can carry out his duties with a little more comfort. I am glad you have seen Mr. Bailey and he must be of great assistance to us in the River future. You say a man named James Dale has been sent on the Island who is he is a Canadian and before this comes from I shall look after him. As I go up again fishing this year very poor all along the line. The Scotch fishermen are my great hope. I have from you soon. Yours truly

I am in receipt of your letter of the 2nd instant. I am sorry to hear of your illness and to inform you that the same has been examined and delivered in the name of S. M. Greenman.

Mr. Greenman stating that he was the sole owner of the same and you were quite satisfied to have the license that day under this circumstance and the question of your not being some of the persons not doing at any time. I had no alternative to make out the license in his name he sending the money through Mr. Beattie. He is not a partner ship with Mules that I am aware of Mules having a license is his own.

Wm Oull

Dear Sir
Humboldt Nov 21 1888

I beg to inform you
that I am in receipt of letters
informing me of the death of
your cousin the Duke of
Sutherland in the month of
February or March last in the
North Coast during the storm.

I hope that your
regiment has for the winter
been moved to some place
for an expedition in the
the Arctic & other expeditions
and the result of the report is
being at

Yours truly
J. A. Miles

Hamilton March 9. 1899
Dear Sir

I beg to inform you
that I am in receipt of letters
informing of which I have
every reason to believe are true.
That you are in the habit of
fishing a trap net in the
Mule Creek during the past
winter.

Before taking proceedings
against you for the same
offense I would request you
for an explanation regarding
the matter & either acknowledg-
ing the truth of the report or
denying it.

Mr. A. C. Miles
Jordan Station

Yours truly
F. J. Hamilton

My Dear Bishop

I am in receipt of your letter of the 8th inst. and in reply might say I am pleased to learn that they have come to some conclusion as regard the licenses as I had about made up my mind to cancel the whole business and not to be annoyed in such way applying for licenses or in any way then in a short time having made out different

Kindly send the money at once and I shall countersign the licenses and turn to the parties whom you name the fees for. I shall not be able to be down for some time having to go to Essex.

Yours truly

Sir

I have to acknowledge the receipt of your letter of the 4th inst. re. the case of the claims of our friends and John Francis to Eastern in Chicago.

Before giving my opinion on the matter would give briefly in form my opinion those men and what kind of business they wish to do for which the portion of the firm do they wish to do. As the names of the above parties are new to me I would like a further information before making any recommendations in regard to the matter.

Respectfully
 M. J. Harnett

Dear Sir

I am in receipt of your letter of the 15th inst which is duly noted and I am just thinking what claim you are we were that that our engine at Greenman House, but better luck next time. With respect to the well and Geo. Light Company I think it is better to wait until I make an inspection and then to the Dept. asking what course would be best to pursue in this matter. I am just getting ready to make a trip to the beach paper from back as getting along. I am a poor fellow since I saw you in better times. Yours Sir Frederick

We are happy to hear that you are well. I hope to be called upon soon in this case. I am sure you will be able to do anything worth

Hamilton March 14th 1898

Yale no 2532

Sir

I beg to acknowledge the receipt of your letter of the 15th inst. regarding me to inform you why I recommended the issue of a full net license to Chas. Ross. But I will not when I was aware that he was not in my division &c.

In explanation I may state for your information that I was in receipt of a letter from Chas. Ross dated the 12th of January last containing the sum of \$10.00 for salaries making application for full net licenses on behalf of himself and one John McKewon to fish in front of the Counties of Mont and Welland respectively. The applications were made out as follows - Chas. Ross Fishing Co. of Mont. and John McKewon Fishing Co. of Welland.

I was little surprised in Ross sending his application through me but as the money for both parties came in the one letter McKewon asking for his fishing Co. of Welland my own division. I decided to recommend both as they stated as I understood C. McKewon the late owner had cleared out to the States after defrauding some of the fishermen out of their money. And I was not aware of anyone else being appointed in his place or Ross would not have applied through me if such was the case.

I can assure that I am doing I done in the matter was entirely honest. Merely a matter of business and upon

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named case. I am sorry to hear that you are unable to produce the original of the letter which you refer to. I have, however, been able to find a copy of the same in the files of the Department. I am enclosing herewith a copy of the same for your information. I am, Sir, very respectfully,

ignorant of any other officer being in
 charge or in place of McKee. When I
 might inform you that I have been in
 the habit of receiving applications from
 one Isaac Green for some time
 for years back. The requesting of money
 is the last officer in a course of this
 character. This is the case with
 numerous times I was placed in charge
 of this division through the emergency
 of the McKee having collected the fees
 on several occasions of this division
 before may have had the knowledge as
 just one of my general in not informing
 the boss to send the money check to our

 The occurrence. As I was not aware
 of the name of the officer of any that
 is known to be in the place. As I
 was unable to suspect of any such change
 taken place in the past.

Hoping this explanation
shall be satisfactory to your Dept.

Hamilton March 14 1898

Sir

I beg to acknowledge the receipt of your letter of the 10th Feb - No. 1714. Concerning the enclosed communication from Mr. Malcolm Macphie of Port Dalhousie dated 1st Feb. I am at present seeking for information in reference to the prohibition of fish sales in the Port Dalhousie Harbour. I may state for your information that through the representations made by the Seneca County Pisciculturist Club to your Dept. in the year 1895, your Hon. at the time decided to set apart for purpose of enabling to effectually to carry out the provisions of the Fisheries Act for the protection of the fish to close all nets of any description from the in the old Welland Canal Welland Canal Enlargement Port Dalhousie Harbour 10-16 & 20 mile Pond. Also authorizing Mr. Beattie to act as special Servey Gamekeeper while in the employ of the Seneca Co. Pisciculturist Club.

These provisions have been carried out since which I approve of. As the places mentioned are all breeding places for Pike Bass Peckered and should be set apart accordingly for breeding purposes. As far as the fish nets are concerned I consider them very destructive catching a great number of Peckered & Bass which frequent these waters for spawning purposes and at the time when they are

Therefore I would strongly recommend
 subject to your consideration & approval
 that the request of the McPherson be
 not granted, and the be satisfied
 to that effect, as it is the desire
 of a large number of the citizens of
 St. Catharines as well as others that
 those waters be fully protected in
 order the fish may increase for
 angling purposes and as most of the
 game fish moves during the close
 season it would be useless to allow
 this as advantage of the game would
 be sure to taken if except a man
 was at the place watching all the
 time. Consequently it would be to
 stop it altogether even for their own
 use, as there are no ground fishing
 could be compensated and the people
 find it

Respectfully Submitted

The Deputy Minister of Marine & Fisheries
 Ottawa

To be on your
 Obedient Servant
 J. A. McPherson

There are several other points
 out here which I approve of, as they
 please themselves in all the fishing
 places for the Lake St. Catharines and
 should be set apart especially for
 breeding purposes as far as the Lake
 and the surrounding area. I am sure there
 are many other things as great as
 the Lake St. Catharines and the other
 things as great as the Lake St. Catharines
 and the other things as great as the Lake St. Catharines

Hannell's March 24/89

Sir

I beg to inform you for your information that on yesterday the 21st inst. I proceeded to the north shore of Bantling Bay for the purpose of searching for all nets that may be illegal fishing in any open water clear of ice.

I detected what I found one net about 100 yds. long fishing in Maples Island Pond which I seized and destroyed at once. The net contained a number of fish. The net was an old one and was not worth keeping. As the Bay is still largely covered with ice I was unable to use my boat. But in case of need I would possess myself of any one I found in nets. As required. As I could learn no other nets were out although I observed everywhere that illegal fishing had been carried on especially during landing seeing Bays. Lines etc. hanging around. As the Parliament was very anxious of getting the provisions of the last session passed through that they would not illegally fish in B Bay this opening. I beg to assure you they do not intend to break out their pledge.

My Dear Beattie

I am in receipt of a letter from Greenman informing me that there follows an account of what we were notified - half an hour before the boats and states we catch 20 of fish. They don't stop for Sunday or anything else he thinks if we could manage to get to his place after dark before daylight we could catch whole business. I am moving and will be unable to get down for a few days. In the meantime I would like you to let me know what arrangements you make so as to enable to make a success of the trip. The whole business is based on them without first being seen in the neighbourhood as I am fully watched those days as to my movements. I received the letter that Macphie wrote the Sept asking what authority you had to go and part of your notice to me I send my answer. I should like to see all time to come.

Yours very truly
 J. Macphie Esq
 St Catharines

Dear Sir

I am in receipt of your letter of the 20th & appreciate the interest which you have taken in your letter. I regret that I am unable to give you the information which you require. The matter is a very complicated one and I am afraid that I cannot give you the information which you require. I am, however, very sorry that I cannot give you the information which you require. I am, however, very sorry that I cannot give you the information which you require.

Sir

I have the honor to
 report for your information that
 on the 30th I proceeded out on
 the waters of Washington Bay on
 the receipt of information of seal
 spearing and fishing with the
 being carried on. We arrived close
 by to Dundas Marsh where we
 observed a number of boats and
 with men & spears. We approached
 one boat containing two young
 men with a spear gun at a short
 distance from them, they took a sudden
 endeavor to escape one of the
 spearing and the other with
 the spear but the water & marsh
 being too deep he was unable to
 escape. I seized the spear and
 took their names. As soon as the
 spears were made the other
 suddenly and quietly disappeared.

We then moved over in
 the direction of the beach, and
 cautiously made our way to the
 extreme end of the bay and
 when off the end of McGill Point
 we were sighted and two
 men.

Two boats were taken out
from within a mile of shore, and
brought into the river and
then separated. The following
boats following them. The
smaller up to the first house
that was in the river. The
other then out of sight. The
one immediately disappeared
the other, however, and
over the first house when I
then passed the river. The
about 400 yds. of good water
with a lot of fish. The
being about in the river. The
especially good and successful
the water.

It appeared that of some
one knew that there is a
great & fine river of the
name of the river. The
in order to have a
legally in the river. The
as the running water is
probably an opportunity to
however there is a

Two boats anchored and when we
were within a mile of them, and
raised two nets, and run into the
shore opposite before reaching we
closed following them. The second
or third up one of the Fish Houses
that were in the cove, and
threw their nets & fish under it
and immediately dumped over
the beach. I landed and hurried
over the Fish House when I saw
them place the nets, and found
about 400 lbs. of good Petta Sea
nets with a lot of fish & the fish
being alive in the nets &c. I therefore
accordingly seized and confiscated
the whole lot.

It appears of what I saw
and heard that there is a gang of
boys & young men sons of the Fisher
men of the beach who are deter-
mined to catch the Saw by catching fish
legally in M. Bay being well organized
as to having outposts & boats to
guard any approach in the case of
discovery their watchfulness of fish

I caught in the act of lifting
I saw at the time the ice
over which they had crossed to
the shore without much assist-
ance. I taking up the remainder
myself. The net was fishing in
front of Dykes wharf. The
net I found fishing in front of
Jones wharf. There being a heavy
flood on at the time I was unable
to capture in a place where
expected another net was fish-
ing. However I consider I done excep-
tional well considering the diffi-
culty I was laboring under on
account of the blow waves con-
tinually breaking over the boat
and drenching us. I observed two
other boats come out of the
harbour for the south shore

I have the honor to
 acquaint you with information
 I received in the neighborhood
 of St Catharines on the 9. Heretofore
 in information received as in
 certain illegal fishing with nets
 was carried at night in the 15.
 16 & 17 mile ponds. In making
 my arrangements in order to catch
 those parties. I happened to drop
 into Messrs Hodgkins & Bar
 where I observed a number of small
 or immature white fish weighing
 from $\frac{1}{4}$ to $\frac{1}{2}$ lb. price. which were
 offered for sale. The fish being con-
 sidered food. I felt justified in
 saying them and confiscate
 the same about 75 or 100 and
 brought up Mr Hodgkins before
 the Court the Police Magistrate
 and charge him for having
 or immature white fish in his
 possession for sale & under sec. 9
 Chap. 95-49. sec. Fisheries Act

Mr Hodgkins admitted the
 charge but was ignorant of the
 law in the matter and claimed
 he did not want to buy such fish.

fish as they were no profits in them and were hard to dispose of at any price, and were the first lot he received this season and were mixed with Herring at the time he purchased them from a young man named Knap from Niagara. And was no doubt caught in Herring gill net at ~~that~~ Niagara.

The Magistrate directed to fine Mr. Hodges \$2.00 without costs. And concerning the Niagara the fine is paid.

I might take this opportunity of again drawing your attention to the remarkable increase of the White fish in Lake Ontario for the last few years in a immature state which I fully explained to you. I put in a report made on the 5th of December last, requesting that certain resolutions be placed on the time when Herring gill nets should be fixed in order to prevent this young White fish ^{and} to allow to mature. I understand already at this time of the year a large number are caught in the Herring gill nets all over the Lake. More so than last year and

and.

and the complaint has become
 general, although I must admit
 that this is the first time I ever
 observe them in any quantity of sale.
 I was informed last year on several
 occasions that those kind of fish
 were offered for sale in most of the
 markets in the Toronto Harbour
 & St. Catharines Markets but this
 did not come under my own ob-
 servation.

All of which is respectfully
 submitted for your own consideration
 & attention.

Sir

I have the honor to advise you for information that on the 8th instant, in company with the Beattie Warden for the St. Catherine Fishing Club, I proceeded to the 20 mile creek where I understood illegal fishing was carried on by night. I engaged a team and drove to our destination arriving at the place at 10 o'clock at night, put the team away and procured a row boat and went out the pond, and succeeded in buying a large seine which we found fishing in what is known as the Bo. There were 4 young men using the net which I obtained until I got their names which were as follows: Jacob A. McIntosh, Clayton Culp, John Culp, and Frank Caymore who were residents of the near vicinity, and who agreed to come to St. Catherine next morning to stand their trial. I brought the net & boat to the beach and placed the same in charge of a fisherman named Freeman until

until the Beattie would be able
 to bring it home. We was then in
 formed by the Seaman that a
 man named Jenkins who fishes
 for 6. & miles a beam fishermen
 who resides on the Jordan beach had
 set a gill net in the pond. That
 evening we went out and grapple
 for it for some time but was un-
 able to find it. We then decided
 to lay in wait until morning
 and endeavor to catch the man
 who is counted a hard character
 who is a fugitive of justice from
 Toronto. And about 5 o'clock in
 the morning he went out and
 lifted the net. And when he
 decided I arrested him and
 seized the boat & net. The net
 was about 100 yards long and
 turned a number of fish. We
 also gave the net & boat in charge
 of the Seaman as well as a num-
 ber of fish I got with the net
 and proceeded with our pris-
 oner to St. Catharines and turned
 over to the Police until the Major
 had arrived at the beach.

Dear Sir

I beg to acknowledge receipt of your letter & account of the guarantee

And in reply am to inform you that I have paid to your credit at the Bank of Hamilton the balance of your rent due the 1st of April namely the sum of \$836.⁰⁰ for which I hold receipt

As to the balance of your account. I am much surprised at your request to rent me to pay for the wear & tear of the house for the last 4 years. I think of the exorbitant rent that I have paid without any delay. And the inconvenience that I have been had to by a damp & wet cellar as well as rotten sewer pipes without compensation. The least said is soonest mended. The bill for the repairs of glass was accidentally broken which I can account. The lock is worn out. The Ben I moved to the back kitchen. You must also not forget that I paid \$2.50 for the scrubbing & cleaning of the house before taking possession.

Dear Sir

I am in receipt of your letter of the 12th inst. and am pleased to hear of your success and I expect by this time they will be begin to think that we mean business. I was told by Mr. Jinsley that Jenkins is now in Toronto a warrant being out for him for stealing committed a few ago. And as he was going back to Toronto Monday he intended to notify the police and have him arrested. And I am afraid Miles will have some trouble in getting his boat back. I hope you have it in a secure place by this time. I was out on Sunday on B. Bay but did not succeed in catching anyone but yesterday I set a fine net net some 200 yds long of snapping and expect to lay out all to night watching a gang near Beaulieu and well endeavor to be in St. Catharines on Thursday and see you. When we can arrange matters in regard to this fellow in the White Boat etc.

Dear Sir

In regard to that business
you strongly recommended to
give him a certificate. I must say
is still left on my hands. I have
heard nothing from him since
I have therefore decided to
cancel the same if the money
is not forthcoming at once. I
will delay until I hear from
you and in the meantime I
am much disappointed in his
actions in not sending the money
as he promised. As you are
aware I would not favour
him only for you appearing in
his behalf. Please let me know
as soon as possible all to right

Sir

I have the honor to
 report for your information, being
 in the vicinity of St Catharines
 a few days ago, my attention
 was called to the presence of
 the St Catharines Well and Canal
 and Gas Light Company who
 manufacture Gas & Coal Gas from
 Crude Oil, and allow the refuse
 from their purifiers to run into
 the waters of the old Well and
 Canal to the detriment and injury
 of the fish that frequent those
 waters. There is no doubt the
 refuse is thus deposited in the
 waters are most numerous on
 account of the large amount of
 lime used in the purifying process
 as acids etc. While I was there
 I observed a continual flow of
 refuse emptying in the canal in a
 liquid state. Also from ap-
 pearance there is a large amount of
 the refuse dumped on the edge of
 the Banks, which washes into the
 waters. I spoke to several or at
 least a number of the residents

residents of St Catharines spoke
 to me in reference to this matter
 to ascertain if something could be
 done in order to pull the company
 to abort the mission if possible
 and I promised to do the matter
 before your departure for their consideration
 after explaining the matter. Some
 of the parties more interested in the
 company's claims they have caught
 fish so saturated and impregnated
 with this poison's substance that
 they were wholly unfit for food.
 A great number were dying during the

 a good distance from the shore
 which convinces me that the poison
 is more offensive than well sup-
 posed. I am also informed that

Dear Sir

I beg to acknowledge
the receipt of your letter of the
15th instant re building a Boat
House on the shores of Little Ouse
Marling Beach.

In reply I am to state there
is a Fishing Reserve of 60 feet along
the Lake shore on Marling Beach
for fishing purposes only. which does
not permit the erection of any boat
house or building except by license
on fishing by license fishermen
who are allowed this privilege
under license. As you do not say
what portion of the beach you
desire I am unable to advise you
in the matter until I know.

Sir

I beg to report in
reference to your letter of the 12th
enclosed to me in connection
with the application of Jos. Muen
of Vernon to his application for a boat
license to fish 4000 lbs of Herring from
whale skin gill nets in Lake Okanagan.

I may state for your information
that although Muen is a new applicant
still I am of an opinion that the State
of the Fisheries here is such, that it
shall be quite safe in allowing him
to fish as far as the Fisheries is
concerned. And no wise man or
demagogue the fish as they are quite
plentiful in the vicinity they being
perceptible increase for the last
two years. Last year, the fishermen
in the District did not fish all
the net the law allowed, as they
could catch all the fish they could
handle with less nets. The catch of
Herring being so numerous as to glut
the market. I was speaking to one
A.B. Jorva who is backing Muen
and is a strong supporter of the
present Gov. says he has gone to some
expense already in behalf of Muen
Muen I would therefore recommend that
the present Fisheries be given the license
of Muen's Fisheries to the full of
4000 lbs.

Dear Sir

Moses Hublock a poor old fisherman who resides on Burlington Beach on the north side of the Peas whom I probably you are acquainted with. Asks me to write you and ascertain if something can be done in addressing a grievance he has which I will try and explain.

It appears in passing in the Canal Reserve they have completely closed all access to the Lake leaving no way of crossing between the Peas & the Town of Burlington. Hublock holds a license for the privilege of fishing all nets appear in the place in the waters of Lake Ontario by erecting this fence they have cut off all communication with his grounds with a rig. Therefore putting him to great inconvenience. As he asks that a gate be placed in the fence near his house and allowed of key to the gate for his own convenience I would kindly ask you to intercede in his behalf as he is a deserving old man. I am by giving to the Fishing Dept. and having an interview with the official there.

Dear Sir

I am in receipt of your letter of the 24th instant re Chubuck & Co. and am pleased to hear of your success in the case. However there is another matter of some importance almost similar to the other which just now affects Richard Saffell & Wm. P. Saffell & Co. Some time ago the Grand Jurors of the County of Cook, Illinois, ordered the construction of a new line of street cars along the water front, leaving the existing line a distance of about 100 feet, except for a public passage which for a time closed out all the firemen from their parking places except by climbing the fence. I reported the matter to the Dept. at the time and Mr. Carpenter who was then member for interested himself in their behalf. The matter being brought before the Railway Committee and as I understood at the time a final agreement was made that each fireman was to be allowed a place opposite his parking place and each fireman thus provided for was to pay a nominal sum each year and bind himself to keep the place clear from obstructions. The

By track to a number of the
fishermen complied with this
agreement. But others were not
with the Public crossings.

In Saff & Depress case a gate
was erected in such a place as to be
no benefit whatever to the
being impossible to interrupt the
parties. Consumed crosses over a
river fence which divides the water
lots between their respective residences.

Being on the beach of the river
day on official duty Mr. Saff was con-
sidering very well of the annoyance
and inconvenience he was put to by
compelled to climb a 5 foot fence in
order to carry on his fishing nets
boxes &c must be all left over this
fence. I might say in the first place
when the line was first constructed
the rights of the fishermen as far as
crossings were concerned was duly
expected no trouble occurring until
the building of the new fence. Although
Mr. Carpenter endeavored to have
matters amicably settled it appears
he failed in Saff & Depress case. If there
is anything that can be done in this
matter be half in redressing their grievance
I would kindly ask the interference of
them & beg to return them of them

Mr

I beg to acknowledge the receipt of your letter of the 22nd file no 802. Containing the enclosed opinion of the Dept. of Justice relative to the loss in transmission through the mail of a fine of \$5.00 imposed upon Alex. Scott by Mr W. J. Evans J.P. of Niagara for illegal fishing &c.

I might say that I concur in the opinion that the fine and thus Mr Evans should be called upon to make the amt good. As no doubt it was a neglect and carelessness his part in not registering the letter when sending the money.

After Forsdale trial which took place the day before Scott's I left for home and requested Mr Evans of Scott appeared the next day he was to pay him \$5.00 and send the money to me giving him my address. I did not say in what way as he is supposed to be an intelligent man and of common sense and needed no advice in this matter. He claimed that Forsdale fine was to his destination which went to the

 The both letters were sent the same day

I thought at one time he

I have nothing further to say

Dear Sir,
I am in receipt of your letter of the 27th instant inquiring about Section licenses. And am to inform you that I deem it inadvisable to grant any further licenses as the number is greatly increased over the number issued last year. Also to request you to make application for licenses in the beginning of the year.

Yours very truly

Dear Sir I have in my possession
license for the privilege of fishing in
House in the name of the Carrock which
makes 3 license the same as you held last
year. Would you inform me whether
you wish to take this or not? If not let
me know and I will have it cancelled.

I have been thinking much of late about the matter of
 the future of the people of the South. I have been
 thinking of the future of the people of the South. I have
 been thinking of the future of the people of the South. I
 have been thinking of the future of the people of the South.

while fish fishing here is much different from other places on account of the time the fish are, their habits & movements. They appear on its shores at certain periods of the year not for the purpose of spawning but for certain foods viz. commencing in or about the middle of April until the month of August. Also I believe with the proper size regulation which mesh extension measures there is no danger of injuring or deteriorating the white fish in this vicinity by use of the seine. As they do not appear here in schools as at Davis's Point and Saginaw Bay some scattered. Their movements and as far as my experience and observations go in the time some hauling was prohibited some 3 years ago the class of fish caught were mature and of good marketable size and were really sought for by the epicure.

It also must be distinctly understood in taking this matter under your consideration there is a vast difference between the seine hauling at Burlington Beach as in Bays & Rivers. Where all classes & sizes of fish are indiscriminately

Caught

caught. in fact there is a great contrast in the size of the white fish caught with seines at Fronts Island and Niagara then at Beaulieu Beach where at the former places large numbers of immature fish were indiscriminately caught while it has been always noted that a superior class of fish of the same species are taken at the beach.

However in conclusion I must say that I would rather a thousand times see the use of seines allowed at Beaulieu Beach than to continue the use of Herring gill nets during the summer months a practice that exists if the preservation of the white fish is at stake. And would recommend subject to your own consideration and approval that the use of seines be allowed on Beaulieu Beach. Seeking to commence the 1st of May to the day of ~~August~~ ^{September} and must in the act be no less than 4 inches extension measure the license fee to \$5.00 payable in advance before commencing to fish and if any immature white fish are caught license to be cancelled. at the same time all Herring gill nets to be discontinued for the same period.

period. There is at present 4 men on
 Burlington Beach. The who work is
 to obtain licenses, namely Fred Long,
 Sam^l Meguire, Chas Saff and David
 Megillway. but if the fishing turns
 out good they are a number of others
 who would also wish to start but
 if your left decides to grant the
 privilege I would recommend that
 the number of nets be limited as
 low as possible. I might say there
 is mistake in asking for the months
 of August & Sept. The fishermen ask
 for May, June & July. The fish not coming
 in the former months

There is another gentleman who wishes
 to be licensed. He is a very able man and
 before recommending to fish, must of
 course be satisfied that he is a proper
 person to be licensed. At the same time
 I would not recommend to grant him
 a license until he has been properly
 examined. The same principle

Sir

I beg to report to you
your information that on the 4th
instant I was informed that Mr.
Goddard Fish dealer had small
white fish for sale in the market.
I immediately went over and
found about 3 dozen of small white
fish of which a sample was sent to
the Commissioner of Fisheries for ex-
amination. Mr. Goddard pleaded
guilt to the offense and appeared before
me yesterday. After due consideration
I took a lenient view of the case &
fined him \$2.00 without costs. And
believe that it will have a good
effect in preventing the sale of small
fish in future.

Dear Sir

In answer to the privilege
of allowing the use of seines on Beerlington
Woods. I send my reply on the same
as the 1st enclosed. I hope you will suc-
ceed in getting the permission as it will
be a great boon in your season there is
a great danger of improving
the fisheries of the lakes by carrying out
the rules & regulations governing this
mode of fishing and if any of them are
caught here at that time licenses be
cancelled at once but I am sure they
shall be very careful in this respect
In setting the time of fishing I ask from
the 1st of May to the 1st of July of course
as it is now well in May if the
Dept decides to grant the privilege
it would make the time rather short
would you kindly see that the time be
fixed they was speaking to me to day
and appears very anxious about the
matter I told him I received instructions
to report also from Lillie and had
recommended the same and assured
him that you were doing your best

Dear Sir

I am in receipt of your letter of the 8 inst. and am pleased to hear from you. As for the most as concerned nothing could be done for unless you were caught with white fish in the net which certainly would make you liable to the law. I am sure of the stuff.

I am very thankful for your letter of the 8 inst. and I shall well avail myself of the opportunity. Although the power fishing is done for a reason the Beattie rule me in.

When I was in his company that he intended to proceed the doctor and make another regime of possible but did not mean what I thought.

I am sure that he is not a bad fellow after all and it went against my conscience to see him go. I cannot say when I will be down from way but whenever occasion arises you may depend on my calling on you.

Sir

I beg to report for your information that a number of persons has been sent to study as to the scarcity of fish in the Niagara River in the vicinity of Port Lawrence and working out the cause of the perceptible decrease.

Being in the neighborhood of a few days I made direct enquiries as to American fishermen coming over from Buffalo and fishing all nets in our water and find according to the information received that a large number of nets have been put in the vicinity of West Mill Point Lake. It is said that one fisherman from Buffalo named Gaultwine has been fishing as much as 30 miles of fish out of those in Canadian waters. I drove to Melgway and called on Wm Scott the pond net fisherman and went out with him in his fishing lug when lifting his fish, and when he put his hand I concluded to go to Buffalo where he disposes his fish and keep a camp of 11 watch for hogs etc but seen none. That were not Canadian fishermen with proper means. Says Mr Scott informs me that the Americans do not buy there nets but set them by themselves. On seeing one boat early morning of nets going in the direction of Buffalo. In having every reason to believe that the fish close by one of his pond nets. There might be his nets did not been seen since that morning. I did at press Mr

Mr. Scott in assisting me with this bag as I was afraid it might get them into difficulties as did once before. When he gave me great assistance in making a large number of American gill nets in the same vicinity. The consequence was his fishing bag was burnt shortly afterwards causing a heavy loss there being no insurance on it. He

However there is no doubt the nets are then fishing as described and can be found if proper search is at hand and the work properly done and would therefore suggest that the Captain of the Cruise should be at once notified to proceed to Port [unclear] and have some of his Row Boats with [unclear] go to the vicinity in question and [unclear] in the Crystal Beach [unclear] [unclear] them after dark and commence [unclear] as soon as daylight appears. There follows [unclear] [unclear] immediate alarm and would [unclear] these nets at night and the result be [unclear] [unclear] I might say that I [unclear] a number of [unclear] [unclear] [unclear] who fish lines & nets in the near [unclear] [unclear] as to the extent of the [unclear] [unclear] but without giving the direct information that I expected those [unclear] being afraid to tell on account of [unclear] disposing of their fish to these [unclear] [unclear] [unclear]

Americans and might lose their lives
if found out. The Government purchases
their fish &c.

During the day I was in Buffalo
I met Mr. Pomroy the Irish & John P.
of the City of New York and had a con-
versation as to the extent of American fish-
ing still out in Canadian waters as well
as to the extent of poaching etc. etc.
in Niagara River. He promised to
me with all the information necessary
to detect the infringements which are prove-
most valuable to the service in the future.
as I find that better and more reliable
information in reference to those matters
~~can~~ be procured from the other side than
from our own people. If Capt. Hanna
requires my assistance he can write
me and I can meet him at Port Colborne
and post him as to the best way to pro-
ceed in order to make a success of it.
The season for the season has been
fishing has been carried on well into the
month of June.

My dear Pomroy

When I came home I picked up the letter which I think was mislaid. It is different than what I was told. I am sure I will find a copy of what he says. He states that I have promised the N.Y. State Commission the use of anything in the Police Bureau which they have a right to arrest in protecting Niagara Falls. As my Engineer Col. Campbell is passing he on 15th. I think I would consider if you gave him a completely full permit as there would be times when it is necessary and he would like to get in at Hull River for the D.P. Regent.

I would like to be sure of this right case before I write the Commission. I know when you are going to New York and will be in a position to get it.

Dear Sir

I have the honor to acknowledge the receipt of your letter of the 21st inst. in relation to the proposed change in the location of the bridge over the river. I am in accordance with the wishes of the Board of Directors and the Board of Supervisors in the matter and will be glad to have the bridge located at the place suggested. The bridge is now located at the old site and is in need of repair. The new location is a better one and will be more convenient for the public. I am sure that you will be satisfied with the result. Dear Sir

In reference to your letter of the 21st ultimo re Cooper's alleged fishing in the Grand River. I am to inform you that I have the matter before the Dept without allowing your name to be mentioned and the Cooper is expected to explain why he permits these things to occur without taking the necessary action on the subject. The Dept is the apt for proper action if he was exposed to his duties as soon as possible. I will inform you what action shall be taken in regard to these illegal acts.

I thank you most obligingly for the information received and am much surprised to hear of such work being carried on in the River as I am in receipt of other information besides yourself concerning the illegal fishing a few years ago through a lot of hard work I succeeded in stopping such net fishing as a great extent. But as soon as Dr. Montague got into the Ministry he had the thing taken out of my hands for political purposes and of course I was never instructed to take charge of the District since then. The reason I did not answer your letter before was for a reply. The Hon. Minister

That complaint has been made that

Dear Madam I beg to draw your attention to the fact that you are in arrears for rent to Mrs. Kerr for the sum of \$10.00 which is due by you due the 1st of May

I am instructed by Mrs. Kerr to notify you that the money must be paid at once or she will be compelled to place the matter in legal hands for collection and leave the door open to another party who wishes to obtain the place at a much less price than you are paying. I would be very sorry to take those steps but you promise me that the money would be forthcoming in a few days. Sir
 I beg to enquire for
 your information that I am
 in receipt of a letter from one
 E. J. Wetherill assistant of Burlington
 Beach for the last 3 years. Asking
 if any objection would be made in
 him erecting a small Boat House
 on the extreme outside limits of
 the Fishing Reserve Lake Ontario
 opposite his residence.

It appears by his remarks
 that he resides on the Lake side of the
 beach and moves his Boat House
 across from the bay extending about
 the same on the Lake as stated as
 before. The water becoming so low that
 it was impossible to get the Boat out
 and in a falling condition hence the
 proposed change. When he attempted
 to put up the House he was forbid-
 den to do so by the City Authorities
 they claiming the said Reserve
 as City property. The place where
 he intended to build is opposite
 a Fishing Ground leased by John
 McQuinn for the purpose of Fishing
 all nets in the Fall and as far as

on the is concerned about that
as it shows that in every instance
with this feeling being over 100 feet
from the surface of the water
there was not much in the way of
in the form. There is no
objection to them reaching the bottom
it should come from the Government
and not the City. It is desirable
to have that the Government has been
of the Government
to the Government about the
subject. I understand that the
of the matter before the
institutions in the matter

Major General G. B. Smith

I have the honor
to be your
Sincerely
Yours

The Acting Secretary
of the

Department

Dear Sir,
 I have the honor to acknowledge the receipt of your letter of the 20th inst. in relation to the above matter.
 The same information was submitted to the Board of Directors of the Bank of Montreal on the 21st inst. and the same was referred to the Committee on the subject.
 The Committee has the honor to report to the Board that they have no objection to the proposed arrangement.
 Very respectfully,

Sir

I have the honor to
 report for your information and
 attention that while in Buffalo
 a few days ago waiting for a
 train to come home I strolled
 over to the Buffalo Fish Company
 market. and in conversation
 with the manager he informed
 me the large number of immature
 or small white fish that had
 been shipped to them this season
 from both American & Canadian
 fisheries. He enabled me in this
 respect the fish dealer for packing
 that recently arrived. and I
 observed among the large consign-
 ments on hand a number of boxes
 from Young Bros. Port Huron which
 contained a lot of small white
 fish that were not worth over
 a $\frac{1}{2}$ ¢ apiece. The company does not
 want these fish and thinks it
 shame to catch them, and wish
 something could be done to prevent
 them from being caught. I thought
 considered it my duty to bring
 before your notice and would

remain

I have full faith in that respect.
 In the first place. Not only one man
 can be saved, but thousands upon
 thousands from the power of the
 devil while this is achieved.

 he will find, and understand it to
 be universal. Therefore, I have been
 surprised that the officers of the

would suggest subject to your own
approval that the officers of the
several divisions along Lake Erie
be notified, and instructed to keep
a careful lookout and see that
the small white fish be returned

Edmond Harris Esq. Port Dover

My Dear Sir,

I beg to acknowledge the receipt of your letter of the 30th telling me of catching small white fish. In answer to your inquiry I might say that it is not necessary to have new instructions in the matter as the clause in the Fisheries Act clearly defines and covers the same. although the said Act in reference to immature or young fish could be interpreted upon Sec. 9. Sec. 14 Chap 95. In recent letter from the Dept it is proposed to enact certain legislation before next season in order to protect those fish from abuse.

In Lake Ontario the white fish is undoubtedly increasing since seine hauling has been stopped and consequently the lake is alive with young white fish of a small herring size. I have been endeavoring to prevent the destruction of those fish since I made a number of surveys both in Hemlock & St. Catharines markets also a no. of fishermen advised for catching the same being in Buffalo fish market a few days I saw a lot of small white fish caught in 1896. In Canada the law should be altered so as to protect them from being sold fresh.

Hoping you are happy & well
Yours truly
J. H. Harris

Sir

Would you kindly inform me as soon as possible if there is an order in Council passed in reference to the prohibition of the use of spears. I have seen one otherwise in case of an offense what clause in the Fisheries Act would they be prosecuted under.

I am not sure but I think there was an order passed in one year 1891. The same time the act was passed prohibiting the use of fire arms. There is a number parties in the habit of spearing sturgeons in the rapids of Niagara River above Queenston. Complaints being made to that effect and I want to make sure before taking action. and although I thought I had the order in Council in my possession I am unable to find one as I have made arrangement with H. Mr. Shippard the provincial officer at Queenston to endeavor to catch those parties next Saturday night. I would like an answer before that time.

in reply to which I beg to repeat for your information that I was informed by a gentleman who has dealing with the Kaffir fish company that being about a few days ago seen large numbers of black bass mixed with white fish shipped from Winton the shippers names being Messrs Clark & Ginn of that place. My informant does not wish his name mentioned in the matter as it might injure him as he does a large business with the company but he enquired of me to lay the matter before you. As I have every reason to believe his statement to be true I would suggest that enquiry be made to ascertain as to the extent of the shipments and where the fish was caught in the first place respectively submitted

My Dear Gibson

Not having seen you for months. I concluded to write you and at least let you know how I am getting along. Being pretty busy during the Spring. And in fact harmonizing with the Sept. I have signed a great contract in treatment I am receiving now than the one I was treated about this time last year with a desolating change over my head. I have moved up on the Mountain taking a place near the old homestead. The change making a great improvement in our health.

I was thinking now as everything has become quiet not having heard anything against me lately in account of my former political views. Would you think it advisable to make a move in the direction of having my salary raised. I have been in office 9 years. The 8th of May last. My Father died on that date 1865 and you know and the people know of what work I have performed in that time. And as all the time the salary is hardly sufficient to keep my wife & 2 children in manner

manner that I wish. I beg to be as
inconvenient as possible but do not
appear to get much ahead and it is
3 years now since you successfully
got me. The last time my salary
at present is \$500.00 per annum
Thos. Moulton & Henderson sometimes
I was reduced from \$600.00 to \$500.00

I cannot understand why
Mr. Shepperd the newly appointed Pro-
secutor at Toronto should be paid the
sum of \$1200.00 per year a more while
I am paid this small pittance & do
more all I have performed in the
last 3 years having credited down
and carried out all kinds of collec-
tions of different kinds of duties per-
taining to the office satisfactorily and
with dispatch

If you consider it alright and
advisable I would much like to ask you
once more to speak to the Minister
in my behalf. And as myself and
Mr. Bain is on poor terms I believe
with the assistance of him and
Mr. Mepham you would at least get
me a small raise. However I will
leave it in your own hands. Hoping
that if anything can be done. I will
not hesitate to use your ability
influence to carry out my wishes as you
have always been and therefore
Yours friend
Thos. Moulton

Please let me hear from you
soon as possible. Hoping you are
enjoying good health.
S. 12

Yours friend
Thos. Moulton

Dear Sir,

Being with the Board of Directors I was much surprised to learn that you allowed your nets remain in the Lake for some 10 or 12 days without mending thereby putting the waters and unnecessary disturbing fish which is directly against the Fisheries Act on page 15 Chap 90 Sec 3.

In this matter I am sorry to find that you have not by your own nets I am to suppose that you are not to fish your nets any longer until I am satisfied that you are a fit & proper person to hold a license as I understand that your license cancelling if you do not intend to fish. As to the regulations and promises

to be in as full as the open market says you liable to a fine as well as your license can be.

Please tell me as soon as possible as this thing cannot be allowed to go any longer. Yours truly

 of the 21st instant File No 1192 - re
 Mr E. S. Welland Burlington Beach
 who applies for permission to build
 a boat house on the Portage Reserve

I am to state for your
 information that I inspected the
 place Mr Welland pointed out
 the spot where he desires to erect
 a boat house and as far as I can
 see it cannot interfere in any
 way with the Portage in any shape
 whatever being over 60 feet from the
 water edge on the north side of the
 railway fence and being on the
 Lake side of the north railway
 fence it cannot interfere with
 any other accident having in the
 locality south of the other fence
 being situated behind his own

Dwelling. Under the circumstances
 as I do not hesitate in recommend-
 ing him the privilege provided
 if there is any trouble he is to
 bear his own responsibility which
 he claims he is prepared to do

My Dear Mr. Baird

I am in receipt of your letter of the 5th inst. re some hauling Burlington Beach. I am not sure that the Dept. would come to the decision desired as it would be almost impossible to make an exception as far as one locality was concerned. And after the experience I have had in reference to this mode of fishing I was not prepared to recommend it on the whole &c &c.

However I am sure it is well to say from E. J. Prynor of Abington and old friend of yours who you are aware is engaged in the raising of Cape fish in private ponds; and tells me that his ponds are full of them and is unable to catch them for want of proper means. What I want to come to is this. Last Spring I succeeded in seizing a large seine at Jordan near St. Catharines which was confiscated and stored away for the future consideration of the Dept. now this net would suit Mr. Prynor in just what for his purpose and as all seines are distinctly prohibited in my opinion and therefore cannot be sold being illegal
illegal

illegal. I do not think it an-
nual to give it to Mr. Snyder for his
own personal use to be used entirely
in this private house in catching
the fish as the argueres I know Mr
Snyder being an honest man would
oppose to fish the out otherwise than
for the one purpose only. I know the
Dept are much opposed to the
culture of Camp. Claiming them
a very inferior fish. on this account
I do not wish to apply to them the
act. but I promised Snyder to write
you to speak in his behalf and
endeavour to get the act for him
I would therefore kindly ask you
to speak a endorsement the Dept and
get the order of possible for the act
it is a good net and it is a fish
bag. it is it does Mr. Snyder and
good. I left the net in charge of
Mr. Beattie at St. Catharines at the
time of my leaving and as
have it carefully dried and stored
away for further instructions and
expect they were carried out as
enclosed.

My dear Sir,
I have the honor to
acknowledge the receipt of your letter
of the 11th inst. in relation to the
proposed extension of the
road from the north of the
city to the south of the
city. I am sorry to hear
that the proposed extension
of the road is not
being considered by the
authorities. I am sure
that the proposed extension
of the road is a very
important one and I
trust that the authorities
will consider it in the
near future. I am,
Sir, very respectfully,
Yours,

Hamilton June 12. 1892

Sir

I have the honor to report in reference to your letter of the 8th instant. In No 1198 re. Com E. G. Welland Bridge. Mr. Beach who requests permission to build a small boat house on the wharf between in opposite his property.

In answer to this matter I may state for your information that I inspected the building in question when Mr. Welland visited and the spot where he wishes erect the building. and as far as my judgment goes it cannot interfere with the service in any shape whatever being over 60 feet from the water or north of the outer fence of the railway next to the last it cannot interfere with any other incident of the place. The building is right between the wharf and the railway tracks between.

I have no objection in recommending the above permission provided he bears the responsibility of any litigation or trouble that may arise in building the house. It being his work in the city and therefore not to be taken action.

 Dept. objects to the building &c. and
 what rights the city has. The
 to the Fisheries Bureau. and of the
 Dept. sees no objection as far as this
 goes - with fishing rights and concern
 - and he intends to fight the matter
 out with them. But I don't want the
 Fishing Dept. to be made responsible
 or delegation as it is not a small matter
 at the Court. The matter is in question

Hamilton June 17th 1897

Sir

I beg to report of the
your information that on the 16th
instant I proceeded to Hamilton
and went up to the aspects where
I understood spears were
of late. I found a number of men
there with spears in their possession.
I succeeded in arresting 4 men on
suspicion of spears. The men I arrested
were railroad men and pleaded
ignorance of the Law. and asked
that their case be disposed of at once
and save them time & expense. They
seemingly respectable men I found them
\$1.00 each without costs confiscating
the spears. The other parties except
leaving the spears behind.

The names of the parties
arrested are as follows

Wm. O'Connell, Wm. O'Connell, Wm. O'Connell
J. O'Connell, Wm. O'Connell, Wm. O'Connell
and Jos. O'Connell. I left
the spears in charge of H. M. O'Connell.
The pro. O'Connell at Hamilton for
future consideration.

Very truly
Yours
Wm. O'Connell

Have the honor
to be Sir

Dear Sir

I refer to the
 building of your house, the
 interest in the house on the 8th
 of June. I am sorry to hear
 of your intention to build
 in another in my neighbourhood
 especially in the present state
 of the country. I am sure
 that it is a very good thing
 for the country to have
 a new building and I am
 sure that it will be a
 great benefit to the
 country. I am sure that
 it will be a great benefit
 to the country. I am sure
 that it will be a great
 benefit to the country. I
 am sure that it will be a

Dear Sir

In reference to the proposed building of your Boat House the Board under its construction on the Perkins Reserve. Burlington Beach.

I am to inform you that in answer to my communication in relation to the permission you ask. The Perky. Dept states that the Reserve is merely for the use of the Perkyman in landing and drying of their nets etc and its not desirable by the Dept to grant permission to anyone to build upon it but the not for disposed to object to your erecting a Boat House provided you bear your own responsibility and bear the costs & expense of any litigation that may arise between you and the City authorities regarding the same.

Hamden June 25th 1897

Dear Sir

I beg to acknowledge receipt of your letter of the 21st inst. concerning check for the sum of \$850⁰⁰ fifty dollars for buying Permits.

You will please find 4 regulated permits and 3 receipts of having run out of the regulated pits and send them to me. I will put on a supply of new pits.

I am uniform those permits. I am sure that I shall get them with the proper license as I get them and in the mean time they can be used for the same purpose. As they will hold them against any trouble of producing if necessary.

The first thing I noticed
 when I stepped out of the car
 was the cold. It was a
 sharp, biting cold that
 seemed to penetrate my
 coat. I shivered as I
 walked towards the door.
 The air was thick with
 the scent of old wood and
 the faint smell of
 candles. The room was
 dimly lit, the light from
 the candles casting long
 shadows on the walls.
 I looked around, trying
 to take in everything.
 The room was large and
 empty, with a high ceiling
 and a floor of polished
 wood. There were no
 people here, no sound
 except for the crackling of
 the fire in the hearth.
 I felt a sense of
 isolation, a sense of being
 alone in a vast, ancient
 world. The silence was
 deafening, and I could
 hear my own thoughts
 echoing in my mind.
 I walked towards the
 door, my footsteps
 silent on the polished
 floor. The door was
 slightly ajar, and I
 pushed it open. The
 light from the hallway
 was warm and inviting,
 a stark contrast to the
 cold of the room. I
 stepped out, the door
 closing behind me.
 The hallway was long
 and narrow, with a
 high ceiling and a floor
 of polished wood. The
 walls were covered in
 tapestries, and the
 air was filled with the
 scent of old wood and
 the faint smell of
 candles. I walked
 down the hallway, my
 footsteps silent on the
 polished floor. The
 door at the end of the
 hallway was slightly
 ajar, and I pushed it
 open. The light from
 the room beyond was
 warm and inviting, a
 stark contrast to the
 cold of the hallway. I
 stepped out, the door
 closing behind me.
 The room was large
 and empty, with a high
 ceiling and a floor of
 polished wood. There
 were no people here,
 no sound except for
 the crackling of the
 fire in the hearth.
 I felt a sense of
 isolation, a sense of

 ancient world. The
 silence was deafening,
 and I could hear my
 own thoughts echoing
 in my mind.

Dear Sir
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the proposed amendment to the constitution of the State of New York. I have also the honor to acknowledge the receipt of your letter of the 11th inst. in relation to the same matter. I have the honor to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,

Dear Sir

Complaint has been made in the vicinity of Winona that you are in the habit of picking small white fish mixed with perch the same being caught in a $2\frac{1}{2}$ inch mesh. Having as many as 200 in your possession a few mornings ago. I call upon you to explain whether there is any truth in the complaint as the informant states that we need to swear to the above facts.

As for myself I cannot realize for a moment that such is true after the way you were talking of picking those fish the last time I seen you. If you fish for perch do not mix them in the white fish journals as I understand you do.

Sir

I have the honor to report for your information that for some time past, I have observed a certain species of fish that is caught in Salmon Trout & White fish all nets at the lower & James's Parking grounds Lake Out and what class it may be is puzzling the fishermen. To my notion it is neither a White fish or a large Herring but a cross between. It has the appearance of both in a way the scales being darker but is shaped like a mackerel and is a most delicious table fish. The Head Avonmouth informs me that they generally catch from four to six each morning in their Salmon Trout & White fish all nets the size of a medium size White fish.

They were first noticed last season and did not bring caught but I matter of course was classed as a large Herring. This year they becoming more plentiful a fisherman on Burlington Beach sent me some to see and whether I consider them a White fish or a

Dear Sir

I am in receipt of your letter of the 5th inst. in application for full met license to fish on the north shore of Lake Ontario.

In reply to your inquiries am to inform you that in selecting your fishing grounds you can then ascertain who the fishing officer is who has such district in charge and make your application through him stating the kind and number of nets in use to fish for. The charge is \$5.00 for 5000 yds. of net. Money to be paid in advance and no fishing is permitted until first evening license. The rules & regulations governing fishing is on the back of license. As no special or particular place. I am unable to give you the name of officer to apply to. I enclose a copy of the regulations. Yours truly

 I remembered that this was the first
 time I was going to see the doctor.
 I took a deep breath and walked towards
 the building. The door was open, and
 I saw a nurse standing behind the
 counter. I walked up to her and
 said, "I'm here for my appointment."
 She smiled and led me to a room.
 The doctor was waiting for me. He
 asked me how I was feeling, and I
 told him everything. He then wrote
 a prescription for me. I thanked him
 and left the room. I felt a little better
 now.

or about the time this thing
occurred a great many complaints
were made of the slaughtering of
sturgeon in the Rapids by spearing
which was continually carried on
the fish being in the act of spawning

My dear Mr. Allen

I wrote to the Dept. about the new specimen of fish you are in the habit of catching in your white fish pits which we were speaking of the last time I saw you.

They want a sample sent down for examination. Could you not make some arrangement and have a few sent down next week. You could have some boxed up in ice by themselves and sent on to China where you ship them direct to Ottawa on their arrival. However I will try and get on Saturday next. If I do not see you make arrangement with China in regard to them.

Sir

I herewith send you
a copy of correction of some mistakes
made & collected before the Crown
Attorney at St. Catharines as re-
quested in your letter of Feb. 20th
instant file no 802

I do not know whether
this is was done correctly on
account of no trial being held
they being fined on the spot
If that you can kindly inform
me the proper way it should be
done

Dear Sir

I beg to notify you that
on account of your not making up
your fish license for Oct. No.
before the 15th of July the act of the
fish and game act has been cancelled.
If you intend to fish
this year, you must make another
application before another license
can be granted. The money to be paid
in advance before commencing
to fish.

Yours Respt
Mr John - Haydon

 Mrs. Jane Beatty

Would you kindly
 inform me whether you shipped
 the same to E. J. Angell yet. As I
 have heard nothing since I
 saw you that Saturday. I am
 afraid you did not send
 the address at the time. I
 left a note with the printer in
 plain view the way it should be
 sent. It - but not should be sent
 to him - the letter and the money
 be delivered at Abington.

I intend to go to Seaside
 and spend Saturday of all
 well and spend Sunday at
 the Justice. I would like to have
 my old body guard with me.
 Mr. St. Catherine's first aid
 and Hoping you are in good
 health and I am sure
 to be made

My dear Mr. Sumner

The weather is
favourable. I will be down on
Saturday afternoon and stay
over Sunday and if there is
any illegal work going on we
will be sure to find out.

Please let me know if
you are in a position to go with
me as I expect to visit you
next winter but your were not
well.

Yours truly
Wm. Sumner

Enclosed is a copy of all the
papers I have collected since
the first of March. I have them
in all the papers with me.
I have also collected some other
papers and will send them
to you when I have them.
I am very truly
yours

Amulian July 27. 1888

Dear Sir
I have the honor to acknowledge the receipt of your letter of the 25th inst. in relation to the sum of \$100.00 for the purchase of the land in the town of Amulian. This amount has been forwarded to the proper authorities for their consideration. The land in question is situated in the town of Amulian, and is of considerable value. I am sure that the authorities will be pleased to purchase it for the sum of \$100.00. I am, Sir, very respectfully,
Yours truly,
J. H. Amulian

My dear mother
I have just received your letter of the 21st inst. and am
glad to hear from you. I am well and hope these few lines
will find you the same. I have not much news to write at
present. I am still in the same place. I have not yet
received your letter of the 18th inst. I am sorry to hear
that you are not well. I hope you will soon be better.
I am your affectionate daughter

1872 August 21st

The weather was very fine and
the wind was light and fresh.
We went for a walk in the
park and saw many beautiful
flowers. The children were
very happy and played for
hours. We also saw many
birds and insects. The
scenery was very beautiful
and we enjoyed it very much.
We went home at 5 o'clock
and had a very pleasant
day. The children were
very tired but happy.
We had a very good dinner
and went to bed at 10 o'clock.
The night was very quiet
and we all slept well.

Very truly yours,
Your affectionate father,
John Smith

Hi

Would you be pleased
to inform me whether licenses
are granted for stringing fish nets
in the waters of Lake Huron
as some parties want them a few
days before demand for above infor-
mation. They being a demand for
those fish all present at fair
prices of fish nets are permitted
and licenses obtainable they
would start a fishing them as
I was unable to furnish them
with the necessary information
I told them I write to you Sept
ago let them know the result of
the communication as soon as
possible

Dear Sir,
I beg to inform you
that certain complaint has
been sent me that you have
been in the habit of fishing
your gill nets on the Sabbath
during last Spring and this
summer setting and lifting your
nets on public h. on that day.

As this offense is a direct
contamination of the Fisheries Act
sec. 14. Chap. 95. Sec. 1. of the
Fisheries Act. The penalty thereon
being a pecuniary fine and license
cancelled.

I therefore call upon you
to explain at once whether the
information thus received is
correct or what excuse you may
have before steps are taken
to prosecute you for the offense
as stated above.

Dear Sir

I am in receipt of your letter of the 10th instant concerning the sum \$35.00 for the renewal of permit for Mr O J Eggert of Buffalo. I enclose the permit to you to give him. Philip Becker & wife renewed his to day. I spent in looking over my books the following permits have expired:

1. - H. G. & M. G. Buffalo expired on the 7th August

2. - J. Chmuckenberg Buffalo expired 13th August

3. - C. H. Clark Niagara Falls. ex. on the 10 August

4. - John Boyet Seneca expired on the 7th August

Kindly see that those persons pay you before continuing on fishing.

You can expect me down the early part of next week and we will see what we can do in catching those fellows who persist in coming over.

Good health

Hoping you are enjoying

I remain yours

Dear Sir
I am in receipt of your letter of the 11th inst. and am
glad to hear that you are
interested in the subject of
the proposed new system of
the University of Cambridge
and that you are desirous of
knowing more of the details
of the same. I have the honor
to inform you that the
University of Cambridge
is at present in the process
of re-organizing its system
of education and that the
new system is one which
will be of great benefit
to the students of the
University. I have the honor
to enclose herewith a copy
of the report of the
Committee on the subject
of the proposed new system
of the University of Cambridge
and to beg to say that
the same is one which
will be of great benefit
to the students of the
University.

Yours very truly

Dear Sir

I am in receipt of
your letter of the 11th instant of
complaint in regard to fishing

and to inform you that
I accept your explanation

I regard to having your
nets fishing over Sunday. The law
has never been enforced except
where a fisherman deliberately
sets his nets after 6 o'clock on
Saturday night and lifts them
before 6 on Monday morning

However I will see you
the first time I am Port and
explain matters as I want to
see you in reference to some other
irregularities that is about the
take place which I shall see if you
are interested in

Dear Sir

I have the honor to receive from you a copy of the
report of the committee on the petition of the
freeholders of the county of Middlesex for a
reform of the representation of the county in
parliament. I have read the report with much
interest and satisfaction. It contains many
valuable suggestions and is well calculated
to improve the representation of the county.

Dear Sir,

In reference to the
 fishing of Kingdon all nets in the
 waters of Lake Nepposung were
 opened about the last time I
 seen you. I am to inform you
 that I made the necessary en-
 quires at the fishing dept at
 Colchester whom in reply states
 that no net fishing whatever
 is allowed in that lake with-
 or without license.

I thought I would write
 at once that you would not
 be to any unnecessary expense in
 the matter.

Dear Sir

On the receipt of your card a compliment against the Medley catching boat within your limits without our permission and despoiling of the same on the American side and asking me whether there was any law preventing it or not.

I immediately wrote to the Dept desiring their opinion as there is nothing in the Turkey Act that I could find bearing on the case and their opinion is that under the existing law you cannot interfere with Medley's operations he being a license fisherman provided at the boat. Minnows are not taken illegally.

Very Respectfully

Dear Sir

I am in receipt of your letter of the 27th inst. in relation to the application for English permits to land in answer to your inquiries and also from your letter that I received from N. P. Slater dated the 27th of July asking the rules & regulations governing American apples in Canadian waters as the same to obtain a permit for one N. S. Nelson.

In looking over my book of find I answered his communication on the 29th of the same month explaining the rules &c.

Of course I heard nothing from him since however I will send you the rules. The same as sent you on 1st. All American apples must be possession of a permit to land in Canadian waters the fees are \$5.00 for 3 months or \$10.00 for six. The money to be paid in advance. All application to be sent here accompanied with the fees as soon as money is received a receipt shall be made out signed and returned to the applicant.

Yours very truly
Frederick

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, characteristic of old paper. The left edge of the page is bound, showing the inner hinge and some stitching. The overall tone is warm and off-white.

Dear Sir

I am in receipt of your letter of the 20th inst. and in reply to your inquiries as to granting licenses in the vicinity of Burlington can inform you that 3 licenses have been granted to the following named persons John Belcher Geo A Madgill and Christopher Wilkins for their own use in the waters of Lake Ontario fronting Burlington Beach north of the Canal the fee for each is \$1.00 and each is to be paid on their return to the town clerk. I was down at Burlington this other day and I have your inquiries as regard parties fishing without license and am willing to assist you at any time to find out the same when called upon.

Dear Sir

Being in the vicinity of Beausaults yesterday I was informed by a number of residents that you were circulating a report that I was no longer in the Post Office Service &c. As this talk has a tendency to encourage illegal fishing and otherwise interfere with the carrying out the Fisheries I would ask what authority or why should you circulate such a story please answer

Sir

Would you be pleased to send a supply of close season notices as I find that I have none on hand.

I might state for your information that the white fish in this district has been more plentiful this season more of those species being caught than for 15 years. The fishermen in cases fishing their nets up to the present date. I would therefore suggest and advise that your Dept apprise the fishing officers on Lake Ontario in regard and see that no white fish or salmon trout nets are used as they will invariably take advantage of the increase of those fish. Well watched during the close season.

I am satisfied with what I have observed during the year both in mature and immature white fish that they are here to stay provided they are properly protected during their close season and in immature state.

Respectfully,
 Wm. Deputy Minister of Marine & Fisheries

My Dear Gibson

Being in the vicinity of Port Dalhousie a few days ago Peter Math the old Serbuan that has resided there for some 30 years informed me that the law suit between him and the Hutchisons had gone against him and consequently to all appearance he would be compelled to vacate the premises which if carried out will leave him and his wife in a bad shape. The only hope or chance he has in remaining is through the power of his Serbuan which allows a Serbuan the privilege of erecting buildings on Serbuan Reserve for the purpose of carrying on fishing only. I would judge that his buildings etc. would be on the Canal Reserve if so. The Serbuan Dept. would not object as long as the carried on fishing etc. However as I am not much acquainted with the matter myself. I promised Mr. Wm. Maceray who keeps Hotel etc. and Math to speak to you and see if you would assist him by getting the Serbuan Dept. interested in his behalf and if possible protect the

Dear Sir

In answer to that
 matter we were speaking about
 in Mr McEvoy's letter the last
 time I seemed to bring it before
 the notice of Mr Gibson requesting
 him to make enquiries in the case
 and to find out if the poor had
 some claim on the land where
 your buildings stood. If so then you
 cannot be disturbed along as you
 are asking. In answer to my com-
 munication Mr Gibson informed
 me that he will be down in Port
 on Saturday the 15th when he would
 look into the matter see Mr. McEvoy
 and all your friends and explain
 things to Mr Gibson and he will see
 justice done.

Dear Mr. Pecke

The water has disappeared out of the cistern again, and I am unable to reconnect it. Please send the water up and there it appears as we cannot do without soft water. I have been laid up in bed the last two days with a bad attack of bronchitis and is unable to go down and see you about it.

Dr

I have the honor to
 report for your information that
 on the 22nd of November I presented to
 the University of Cambridge a
 specimen of a new species of
 fish which I have named the
 "Cambridge fish". It is a
 small fish, about 100 lbs. in
 weight, and is very common
 in the Cambridge river. It is
 a very good eating fish, and
 is much valued by the
 people of the Cambridge
 district. It is a very
 common fish, and is

Mr

I have the honor to report for your information that on the 28th ultimo I proceeded to the vicinity of Beausville on complaint that certain persons were fishing all night without the necessary license. I found one French Hydrick was fishing a gill net without license which I kept along with a flat bottom boat. The net was about 100 yds long. He admitted the offense and wished immediate trial. He appeared before me on 30th inst. and pleaded guilty and I fined him \$2.00 costs which was paid and confiscated net & boat. The boat he borrowed from another party and does not belong to him. I would recommend the boat to be returned as it is of small value.

angling was good on the lower river
and around Navy Island above the
falls. during the whole season
splendid catches of perch & Rock Bass
being made at Williamson and the
game whilst Bass fishing was good
at the Island. On the upper river
above Black Creek to the mouth one
few fish were caught of any kind
several reasons are given for the falling
off. one of the main ones the throwing
out of garbage sewage &c that has
commenced again by the Buffalo
authorities other say the fish do
not appear in the lower end of the
Lake as other seasons. This may be
as the Point out of Outh's situation
at Point Abino is miles west of the
Erie did not pay for their fishing.

The American Paulista D. Pomeroy
did good service during the season
in chasing out a lot of poachers on
their side of the river who has been
a great nuisance for years back. After
fishing since 10 on both sides of the river
I have arrested him as much as
possible putting him on our side & he
was in the habit of coming over to
Navy Island from Outh's side
catching our Black Bass. I hope

stopped with Mr. Pomeroy for several
 days he having the headquarters on the
 Navy Island. He having permission
 from the owner of the Hotel there to
 have use of the building when required
 during its vacancy. As this place is
 a dangerous place to work at on ac-
 count of its proximity to the Falls
 it is very hard to capture those scum
 haulers who are always on the alert
 make their escape easily if not prevented
 upon. When in the act. One evening
 during the summer one of Pomeroy's
 men was drowned while carrying out
 his duties being caught in the current
 and swept over the Falls: This shows
 what obstacles a man has to over-
 come in protecting this portion of
 the River. I had little trouble in
 forcing the rules regarding the rules
 governing American anglers. The Pro-
 vincial Officer & Sheriff stationed
 at Alexandria giving me good assistance.
 I left some permits already signed with
 him and succeeded in disposing of
 them to such fellows that sleep in
 for a short time when my back is
 turned I determined to stop it and
 Mr. Sheriff thought the best way
 for him was to leave the permit

them in a hand and then there
was no excuse for those who intended
to evade the law by this practice
the plan succeeded well

The upper river most of
the angling is carried on by the
yacht. The hand to enforce the
law on this account it being im-
possible to get near them in a row
boat speeding away on my ap-
pearance on every occasion that I at-
tempted to approach. Therefore I
think the Sept shall be in a position
another year. Allowing me the
privilege of engaging a steam boat
is not to place myself on the same
footing. I believe if this plan was
carried out it would pay for itself
by the extra fees that would be
collected beside the valuable assist-
ance it would be in running
down some hauls. As it is there
is an increase of \$20.00 collected over
that of last year. And collection
being \$210.00 against \$190.00 of last year
which I consider on the whole as very
fair. *Mapara River*

In reference to the enclosed letter an application of John Bayler of St Catharines desiring the privilege of fishing a trap or machine on fishing lot no 3. Niagara River at International He being recommended by Mr McIntyre.

Before taking any action in the matter. I would like him to be more explicit as to his wants as we does not see what kind of apparatus he wishes to obtain a license for &c. &c. It is what I presume to be the same mode of fishing that was formerly carried on by Mr. Wadsworth & Gabriel. I should be most undesirable to take any action in his behalf. In the first place the fishing at St Catharines has caused a lot of discussion among the Gov. supporters living in the vicinity of International who are ready to apply for these grounds if there was a possibility of again allowing the privilege. In the second place the mode of fishing was so distinctive that the people has begun to see the benefit since it has been stopped by the large numbers of fish caught by angling. Men having no employment making good wages

Dear Sir,
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the proposed amendment to the Constitution of the State of New York, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,

wages by this means of fishing during the whole sea... season if otherwise the machines were in operation the whole fishing would be monopolized to such an extent that no one outside of those engaged in fishing the machines catch a fish while it can be easily secured at the present time by the improvement in the angling since the machines stopped no such great fishing has been for years back which no doubt has been a great benefit to many.

Another thing Mr Gibson believes and I do not think the Fishing Dept would countermand the Fishing of machines or traps again under any consideration. Therefore I would advise or inform Mr MacIntyre that in your estimation it would not be advisable to recommend an outbreak for the purpose of fishing traps in as much as it would only cause discussion in that vicinity. And the people there appear quite satisfied with things as they are since the traps have been prohibited and to take the matter now would only open up a new question. I am

He says he would like
 to have a regular building

 that is necessary for his purpose.
 I think myself that there is
 in this aspect as the building
 much more than I thought and can

Sir

As the term is now approaching when the waters of Burlington Bay shall become frozen over the fore the officers are becoming anxious and are making inquiries as to whether the Dept are going to allow the usual privilege of allowing the spearing through the ice in the strict bay during the coming winter. As heretofore I am under the restriction that as to saying to the State it shall have none and as a fee be placed thereon I shall the privilege be free as the same as last year.

I would as command on my part that a fee not less than one dollar be placed on each fish or speer in order to deter such persons from persons from flying this privilege to the annoyance and injury of the regular speer who are benefited by the premises who are trying to make an living for their families during the winter, as I stated in my report of last year on the same subject dated the 23rd of Nov.

extra to cover this. by expressing
specimens that I always express
them in boxes with guarantee, that
on that a first time should be placed
within 10 to 20 days of each other
which is not the effect of having
one specimen in the process
of one tube that is in one
envelope sent within that time
the best within a day of others when
those things are sent, if it was known
that you were sending first that

that the better person would have
the right and look up a specimen

 under the circumstances they claim
 they have no address the trap being

 heretofore, I would have traps
 authorized to erect this, by enforcing
 certain rules that I always enforced
 when a license was granted, that
 no. but a fish house should be placed
 within at least 20 yards of each other
 which had the effect having peace
 and quietness in the premises

I am told that in many
 instances last winter traps were
 placed within 6 feet of others where
 those traps located, if it was known
 that anyone was catching fish they
 were surrounded in order to cut off the
 fish &c. The consequence would be
 that the lucky person would have
 no time and waste of an arrow
 this time. These objections could be

The Deputy Minister of Marine & Fisheries
 Ottawa
 Dear Sir
 I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above mentioned subject.

26. Those who are desirous of
 ascertaining the amount of
 fish taken in the harbor of
 New York in 1880, I may state
 for your information that there was
 a large increase of fish taken on
 the day last week over any other
 year. Between 100 and 200 at one time
 consequently there must have been a large
 number of fish caught by the species
 which had the tendency to decrease
 the catch by anglers & trawlers during
 the summer months. However I leave
 the whole matter to your hands for
 consideration whether it is deemed advis-
 able to place restrictions on a season
 as free as last year. If it is decided
 to carry out the former proposal I
 recommend that application be commenced
 the 1st day of January the 1st day of
 April and each species be charged
 the sum of \$1.00

Yours obedient servant
 J. O. S. O.

Hamilton Dec. 18th 1897

Sir

Before making out the Annual applications for boat licenses & for the year 1898 - for the Division I would like to ascertain from your Dept. whether it is the intention to make any change in the size of the Herring Gill net mesh or the number of the fishermen of the District are any fishermen of known age before laying in a supply of this net for another season.

I may state here for your information that the catch of Herring during the year has been most unprecedented. immense hauls being made with nets less than $2\frac{1}{2}$ inch mesh of a small size Herring therefore glutting the market so that the price has become so low that the fishing for Herring is becoming unprofitable to a certain extent. Herring selling as low as 40 cts per hundred smoked. against \$1.00 and \$1.25 per cwt a few years ago. Fresh. selling even lower. This cannot be wondered at when as high as 9000 to 12000 are caught in a haul with the $2\frac{1}{4}$ & $2\frac{3}{4}$ inch mesh. The

The fish caught in this mesh are much smaller than should be taken and do not sell as rapidly as if larger and a number of the fishermen quit fishing the small mesh and used the $2\frac{1}{2}$ inch mesh and although did not catch such large numbers still they were a better class of fish that paid them much better in the end and more profitable on the whole as there were less handling for better remunerations.

I am only speaking for my own Division as to the increase in the catch of Herring in Lake Ontario not being outside of the District during the year but what I can learn the increase is perceptible along the whole extent of the Lake immense hauls being made especially at Toronto large shipments being made to this city as well as Toronto. Therefore I consider it a good time to fix on a standard system for Herring in order to hold the supply that now exists in the Lake so that to wantonly destroy them in the same manner the Eskos were by using all sized mesh until these fish were exterminated.

I believe therefore that
the

That the time is now
 a more abundant the course in the
 direction of learning is required and
 must not be the same as the old
 German the course as the old
 and German course is not the same
 it is not the same measure as of the
 order a more to large for the German
 that the German course must be

I am in receipt of your letter of the 21st inst. and am receiving applications of Mr. Black of St. David's as a special agent of mine. I am not sure at present whether this species of fish are abundant at the St. David's ~~at present~~ but I will immediately make enquiry at the Newcastle Fisheries and will let you know if they furnish a stock suitable for the purpose or not. If the answer is not satisfactory I can put Mr. Black in such a position that he can procure salmon or fry from month end to two years of paying so much as 1000 wds. a month. However I will see what can be done at the other places first.

Sir

Dear Sir

I have the honor to
submit to you my annual report
and statistics for the year 1898
for the Hamilton District extend-
ing from Low Banks Lake Erie
to the Lake Ontario
including the Niagara River

Salmon Fishing & White Fish

This important business
has increased wonderfully during
the past year in Lake Ontario
over double the amount of last
season being caught on the whole
habitable grounds generally and salmon
fishing being steadily carried on
from the month of April until the
middle of September. and with
proper distinctions placed on the
fishing of Herring fish nets in
to protect the young a considerable
white fish the Lake being full of
them the size of Herring: no doubt
large numbers of them being seen
in those nets in the summer months
which has the tendency to

looking that night for the monster
at the same time however the
monster that is in view. It was
in front of the monument which
first & last was a great deal of
mud about the fishing of things
fill out the water level during the
months of June July & August. The
would be a surprising in the water
direction, coming on the water to
the fishermen on the water level
fishing with the water level
which first fill with water the same
level. The being always a good
distance for the first water level
is little known for the fishing during
the month

It has been calculated
that between 10 & 20 tons of salmon
beet & water first has been taken
at various places in the fishing boats
fishing at this station. The first
telling at the water level. The water level
and the water level from 10 to 20 tons
to the water level in the water level
has been calculated at the water level
first, calculated from the water level
at various during the season, at
most 100 tons or more of the water
can be taken from the water level

desiring fish to be put for market
at the same time prevent the
increase that is in view. In order
to protect the immature white
fish & Salmon trout. I would recom-
mend that the fishing of Herring
be made the restricted during the
months of June July & August. This
would be a ^{great} improvement in the right
direction, causing no hardship to
the fishermen as they could keep on
fishing with their Salmon trout &
white fish till well under the same
harvest. There being always a good
demand for those fish. While there
is little demand for Herring during
that weather.

It has been calculated
that between 15 or 20 tons of Salmon
trout & white fish has been taken
at Wenona alone, in the four boats
fishing at this station. The fish
selling at 12 to 15 cts per lb. white
and Atlantic from 8 cts to 10 cts per
lb. The increase in the above fish
has been unprecedented the last 2
years, splendid hauls being made
at Niagara during the season, at
near Beamsville a number of the fishes
men set them in after close season.

Season

season getting good returns for their
labour there. Showing that the season
is a general thing. Therefore I come
to the conclusion that by the reduc-
tion now observed, and the healthy
prospects now in view, I hope you
are here to stay, and with a little
forethought on the part of the Sept in
passing certain restrictions in regard
to the prevention of catching the
ma fish. There is no reason why
the supply of those valuable fish can
not be kept up, and have plans
to supply our local markets as in the
past.

Herring and Ciscoes

The Catch of Herring has
been immense during the past
season a large increase over last
year as far as my business is
concerned. Lake Ontario is covered with
appearing at Niagara in numbers
which had almost become a thing
of the past few years. I have
never seen or heard of such a catch
that have been taken at the
various stations since my time.
I fear that some occurred dur-
ing the season. At Fairbury I

our hotel it is an evening at 10:00
that these letters at the left, and in
other directions of investigation in evening
and morning. The letters were compared to

are told that as many as 14,000
fish were taken at one lift, and in
other localities. I understand in many
instances they were compelled to
cut their nets after filling their
boats, and return for the remainder
another time. Of course such num-
bers had the tendency to lower
prices. The markets becoming glut-
ted in the near vicinity there-
by compelling fishermen to seek
markets in the distance in order
to dispose of the surplus in hand.
Fishes exported to Montreal & Quebec
in large quantities to Commission
Merchants, but it appears the ac-
cumulations from these sources were
small. Prices increased ranging from
25¢ per hundred upward and
eventually to 50¢ per hundred in some
instances. The consequence was
that ceased fishing altogether.
Other resorted to a larger mesh in
order to catch a larger size Herring.
The 2 1/2 inch was used. This had the
effect of placing a premium on
the market, which had the effect
of raising the prices.

The large hauls were made
from 4 to 10 miles out the 2 1/2 & 2 3/4

3/4 inch mesh were used exclusively
 which naturally caught a much
 smaller sized fish. These enormous
 catches and low prices has set a
 number of fishermen on thinking
 as to the advisability of the contin-
 uance of the small mesh. Others are
 now advocating a regular standard
 mesh of at least 1 1/2 inch extension
 measure exclusively. I must say that
 I am entirely in accord with this
 movement and believe it would
 be a popular move as it would
 be a cleaner as well as a safeguard
 of the fishermen especially the ones
 who see the folly of catching
 such large numbers of small fish
 which only become a drag on
 the fishery. Of course I cannot say
 what effect this might have
 on the other fisheries.

The catch of Herring in Lake Erie
 was about the same as last year.
 The fishing in my opinion is becoming
 poorer on in a considerable degree.
 This leaves it hard to find out
 the real condition of this fishery as
 to any decrease or increase.

The census shows an increase
 in the number of fish in the
 lake.

The above was our first impression
and altogether, and the other
smaller parts of the building
in a short time, I was enabled to
explore the interior of the building
and under the roof of the building

of work of masonry and not only that
but also in the interior and exterior

The decline must be disappearing altogether. And that those excellent table fish will be extinct in a short time. I am unable to explain the reason of its disappearance unless they were completely caught out some years ago with the loss of many men who met from which to the fish which are afraid shall be the fair of the blue back. Having a regulation on that passed fixing a standard.

Sturgeon and Herring

Sturgeon fishing was about the same last year the same amount being caught at Port George. The only complaint being of the small size especially at Port George. I think some regulation should be made as to the size of sturgeon allowed to be caught. Catching everything in sight will have a deterring effect on the fishery in a short time if not looked after. Pickled sturgeon is plentiful in the market. Never during the fishing season large quantities being caught at Wexford by the way. On the upper end of the river.

The even springing water flows, it has
of perfect and great covering in the river
to increase water to make carrying &
water level spring flow the danger
opposed from lightest water level being
from covering with the river

I have been very little
 in the way of those
 great seasons. Large
 numbers of the
 birds are collected in

Never fishing was done. The
 of Percheron not coming in the River
 as usual. which made catching &
 Angler lines fishing bad. The River
 appeared plentiful but side was
 few coming into the River.

Caught fish Perch & Mullet's & Meens

There were very little differences
 in the run of those fish during the
 past season. Large numbers of the
 species called the black sucker were
 caught in the Herring fish nets in the
 summer time. but were so soft
 as to be unfit for food and were
 burned. They were of the small kind

Released Mammals

In conclusion I am pleased
 to say that the fishermen in
 this Division has had a very
 prosperous year. There were a
 few cases of illegal fishing and
 some anglers &c. the delinquents
 were fined and nets &c. confiscated.
 There was some 74 licenses issued
 and 39 Angler's permits were issued
 to American citizens to Angler in the
 the

Niagara River. I kept a careful watch on the above River and around every Island and assisted the American Patrol in every possible manner. When I am pleased to inform you some good work on this side of the River in saving seals and prosecuting the offenders. This was a great help to me, as the whole trouble in the past came from parties from the other side and the person in charge of the District before the coming of the present. I succeeded in breaking up a gang of about 100 men who were taking seal pups from the River. I also succeeded in saving the skins and skins of them besides. The fishermen fishing for salmon trout and white fish reported that they were catching a new species that was never observed before years ago. I succeeded in procuring a couple which was very puzzling to the fishermen to say nothing that is neither a white fish nor a trout but a cross between the two. It has the appearance of both in shape, scales being further evidence that it is a cross.

delicious. I have a good
of cable fish. and weighs from 2
to 4 lbs. apiece. I made myself to pro-
vide a sample to send to the com-
missioner of Fisheries for examination
but before I could get a fair sample
the run was over. Next week I shall
try and succeed in getting the quarters
as in other species.

I had a good of trouble and
time in getting in the returns account
of the Fisheries neglecting a overlooking
the fact of receiving the blank form
at the time of receiving the license.
However I have carefully taken pains
as believe the returns are fair as can
be possibly get. The returns of last
year shows 75,000 lbs against 19,000
of last year. The value of the fish
caught on the whole amounting to

My Dear Middleton

The last time I was
speaking to you. You promised to
send me one of the parts of the
Fish & Game Commission. As I
see by the papers that the session
is drawing to a close. I thought I
would kindly jog your memory and
ask you to please procure one
if possible as it would be
of some assistance to
in coming and my duties &c.

Wishing you prosper
and that your services here
are for another time &c

It is better for S. 1. 14

Dear Sir

[illegible]

P. O. In the early spring is the time to detect those parties
illegally fishing. If McDonald is fishing without license
or making application it shall be easy to find out. Also
making enquiries from the Mounties or Billy Warden.

Dear Sir

Harmellon Jan 26, 1905

I beg to acknowledge
the receipt of your letter of the
24th instant re. charges against
Hector McDonald by one W. Leung
and to inform you that your
explanations as regard to your
enquiries are satisfactory as far as
I am concerned as I am aware
those Leungs are a bad lot. That
was the reason I reported this to
to your inst. of the Dept. as I
think they need watching themselves.
They have spent a great deal of money
ever since myself and Wm. Warden
sawed their some some years ago for
passing McDonald boat into service
for that purpose. Also succeeded
in arresting one of their confederates
at Jordan last spring for illegal
fishing and sent him to jail for
one month. He is one of the Leungs
sailed across the Lake the fall
before to escape arrest. Leung is
turning to Toronto again with the
boat when he found I was after
him leaving his partner behind
with the above assets. I understand
that McDonald wishes to obtain
license if they are not to be
myself recommended them your

Memo for Fishing Dept

In reference to the new apples
Massas Beach and Caulback from
Beach is a son of John Beach
at Grand and brought up a fine
man and wishes to start for
himself as they are only two boys
now at this station and find
I fish I see no reason that their
the license should not be given

Mr Caulback is a resident
of Burlington and ask for the
enclosed limits of measure and
the grounds between the house
and the beach house and divide
it into three grounds. Mullock takes
one of them and Caulback another
which leaves one still vacant
there is no objection of the
for their own use the shore
it is hard to keep track of them
and by leaving in limits it will
be more satisfactory The other appli-
cations I sent on the 11 are all
recommended except Christin
Wellsworth who again applies for
the 2. Machine at Decatur as the
kind of fishing is not allowed
recommended that it be not
granted

I am
Sincerely
Yours
J. J. Smith

not only the friends of the cause
one of them and perhaps it is better
to have a series of still and quiet
hours at intervals of time as before
for these are the days when
it is best to keep quiet and
not by leaving in haste it will
be more satisfactory. The other
explanations I sent you the 11th are all
recommended except the one
last mentioned which again explains
the instructions at December to the
house of speaking is not at all
recommended that it be not
sent.

My Dear Beattie

Your will please find enclosed 3. boxes already paid and ready for delivery, namely J. M. Freeman & B. Miles and Ed J. Smith. The latter name is the Port Dalhousie man which you still hold the fee. You can either send me the money or keep it until I come down. I have anticipated all the rest. Ann. Kent's, Gilby & Weaver who have not yet got. you can take them now. I would like them: which will make their business to you for delivery.

A heavy snow storm has set in and I have what a waiting to do. so I think I will stay in the house.

Thos Beattie Esq

Dear Sir,
 I am in receipt of your letter of the 17th inst. in relation to the matter of the General Council to which I have referred. I am sorry to hear that the matter is still pending. I am sure that the Council will do all in its power to settle the matter as soon as possible. I am sure that the Council will do all in its power to settle the matter as soon as possible. Dear Sir

I am in receipt of your
letter of the 1st instant re. Fishery
license and to state that all
shallow license are not approved
It is my intention in future not to
recommend them on account of
the advantages taken in selling
the fish caught. The same is holding
a regular license. I am not going
to accept any of such offers. But
as you have been in the habit of
holding a \$500 license for some years
I naturally consider it inadvisable
to change the present license as it
now stands. Also in order to carry
out your wishes it would have
to be returned to the Fishery Department
at Ottawa for their consideration
approval and in the meantime
out altogether. And if you can not
better take it as at present.

Mr. Richard C. Cress

And please

Dear Sir

I am in receipt of your letter of the 1st instant in reference to the bill for the purchase of the land for the purpose of building a school for the children of the poor. I am sorry to hear that the bill has not yet been passed. I am sure that the friends of the cause will be disappointed. I am, however, confident that the bill will eventually pass, and that the school will be built. I am, Sir, very respectfully,

Dear Sir

I am in receipt of your letter of the 1st instant in application for full net license as well as license for Hook & lines

Please inform me by the next mail whether you are prepared to pay on the entire \$5.00 for full net. The rules are that the sum of \$5.00 must be paid for the privilege of fishing full nets. And \$5.00 for the privilege of fishing Hook & lines. If you are prepared to do this I can get your license.
